The meeting was called to order at 6:10 p.m.

Board Members Present: President Patricia Miljanich, Vice President Dave Mandelkern, Trustees Richard Holober, Thomas Mohr and Karen Schwarz, Student Trustee Rupinder Bajwa

Others Present: Chancellor Ron Galatolo, Executive Vice Chancellor Kathy Blackwood, Skyline College President Regina Stanback Stroud, College of San Mateo President Michael Claire, District Academic Senate President Diana Bennett

Pledge of Allegiance

DISCUSSION OF THE ORDER OF THE AGENDA
Vice President Mandelkern noted that the agenda for both open and closed sessions is quite full. He suggested that the Board consider ending the open session portion of the meeting at approximately 8:30 p.m. and tabling items not addressed by that time until a future meeting. The Board agreed to monitor progress of agenda items and make a decision on tabling items as the meeting progresses.

MINUTES
It was moved by Trustee Holober and seconded by Trustee Mohr to approve the minutes of the study session of September 9, 2015. The motion carried, all members voting Aye.

STATEMENTS FROM EXECUTIVES
Chancellor Galatolo said he received brochures from Chief Elections Officer Mark Church listing polling places for the November 3, 2015 election. As requested by the Board, all of the District Colleges are listed as polling places.

Skyline College President Stanback Stroud asked everyone to join her in sending condolences to Connie Beringer, former Dean of Language Arts at Skyline College on the loss of her husband, Dr. Jack Fiedler, who passed away recently. Dr. Fiedler was a former administrator, counselor and faculty member in the District.

College of San Mateo President Claire said Dr. Fiedler was a faculty member at College of San Mateo. He asked that the Board adjourn this meeting in his memory. President Claire said the Child Development Center received a one-time gift of close to $592,000 from the Lazarus Foundation Trust. President Claire said the Food Pantry, which is a partnership with the Second Harvest Food Bank, had a successful opening.

Executive Vice Chancellor Blackwood said the District submitted an application for the Silicon Valley Leadership Group’s “Red Tape to Red Carpet” award. Congresswoman Jackie Speier, State Senator Jerry Hill and State Assemblymember Kevin Mullin provided letters of support. Chancellor Galatolo said two Board members recommended that the District apply for the award.

District Academic Senate President Bennett said she is participating in the Institutional Effectiveness Partnership Initiative’s Partnership Resource Team as a faculty member. President Bennett said the Academic Senate will hold a Districtwide open forum for faculty and others for the Online Education Initiative and Canvas.

BOARD SERIES PRESENTATION – INNOVATIONS IN TEACHING, LEARNING AND SUPPORT SERVICES: SMALL BUSINESS DEVELOPMENT CENTER AT COLLEGE OF SAN MATEO (15-9-3C)
Kathy Ross, Dean of Business/Technology at College of San Mateo, said the College was awarded a grant to run a Small Business Development Center (SBDC) on campus and the SBDC opened its doors in 2013. She said SBDCs are an extension of the Small Business Administration under the Department of Commerce. Dean Ross introduced Robert Shoffner, the faculty member who leads the program.

Mr. Shoffner said there are 1,100 SBDCs nationwide and 35 in California. He said SBDCs are an integral component of the Small Business Administration’s network of training and counseling services. The SBDC at College of San Mateo
receives funding from the federal, state and local governments, as well as from the District and private companies. There is no fee charged to the businesses who use the services provided by the SBDC.

Mr. Shoffner said small businesses are the engine of job growth in the United States. He said the SBDC helps businesses achieve their entrepreneurial dreams and helps make the economy of San Mateo County stronger. The advisory staff includes people with considerable industry and functional expertise.

Mr. Shoffner said the SBDC has clients in just about every city in San Mateo County; fifty percent of the clients are located in San Mateo, Daly City and Redwood City. A large number of business sectors are served, with the service establishment sector comprising 42%. In 2014, the approximate ownership of businesses by group was: women-30%; African American-1%; Asian-19%; and Hispanic-12%. The SBDC is focused on how to help minority businesses in the County.

Mr. Shoffner said the SBDC offers counseling, along with workshops and training events. He discussed a variety of events including Getting to Wow with Bill Reichert and The Angels Forum with Carol Sands. The SBDC is also partnering with the District’s Community, Continuing and Corporate Education for a five seminar series.

Mr. Shoffner said the SBDC has a strong focus on student engagement. He served as consultant to the College of San Mateo Business Club for the Innovator Forum event in spring 2015. The Center is using student interns to assist with social media strategy and will be utilizing a team of students to assist with counseling one or more business clients under the direction of the Center Director and business advisors. The Center is working with the College of San Mateo Cosmetology Department to develop a series of workshops to prepare students for entrepreneurship and self-employment. Mr. Shoffner said the Center is also reaching out to students at Cañada College and Skyline College.

Mr. Shoffner said the SBDC has had 130 new business clients since its opening in 2013. The total client base is 3,000. There were 980 total client hours; 114 total clients counseled; 8 new businesses created; and 50 jobs created. Success stories include Amour, Seedles, Grace Yoga, and San Francisco Wine School.

Mr. Shoffner said plans for 2015-16 include assisting the Bay Area Entrepreneur Center of Skyline College with a major rebranding effort; expanding student engagement efforts at all three campuses; expanding outreach efforts to ethnic/minority communities; and holding the San Mateo County Economic Summit.

Trustee Mohr asked how the SBDC is promoted to the business community. Mr. Shoffner said social media is utilized and he also conducts outreach by attending several events each week, such as meetings of Chambers of Commerce and business organizations.

Vice President Mandelkern asked Mr. Shoffner to compare and contrast the activities of the SBDC and the Bay Area Entrepreneur Center (BAEC) and asked if there is an opportunity for cooperation between the two. Mr. Shoffner said there are opportunities for collaboration. He said the businesses that typically come to the BAEC are early stage businesses which can be referred to the SBDC for additional assistance. He said the SBDC has some counselors at the BAEC. The BAEC will also be used as the Northern California site for the SBDC and some events will be held there. President Stanback Stroud said the BAEC is an incubator center; there are seven tenants who pay a small amount of rent to have their businesses housed there.

Vice President Mandelkern said the Board previously was presented with information on the EDGE, an initiative of the San Mateo Chamber of Commerce. He asked how this initiative compares and contrasts with the SBDC. Mr. Shoffner said he sees the SBDC and the EDGE as complementary. He said the EDGE is set up to help technology-oriented businesses interface with the City and get established in downtown San Mateo. He said the SBDC can help the businesses in other areas, such as counseling and securing of capital.

Trustee Holober asked if the SBDC is available to non-profit organizations. Mr. Shoffner said it serves for-profit businesses primarily, but will work with non-profit organizations on a selective basis.

Student Trustee Bajwa asked how students may take advantage of the SBDC’s resources and workshops. Mr. Shoffner said events are posted on the District website and he also reaches out to the business clubs on the campuses. He added
that all events are free of charge to students. President Claire said business faculty at College of San Mateo encourage students to attend SBDC events.

**STATEMENTS FROM THE PUBLIC ON NON-AGENDA ITEMS**

Tom Bauer, Vice Chancellor of Auxiliary Services and Enterprise Operations, said the Auxiliary Services Department’s annual report is finished and copies are placed at each Board member’s place on the dais. He acknowledged the outstanding work of Kevin Chak, Manager of the Skyline College Bookstore, and Amanda Bortolo, who works in the Skyline College Copy Center, who put the report together. He said the pictures in the report show that (1) the community members pictured are intertwined and integrated with the services, and (2) the employees pictured – whether they work in the Bookstores, Food Service, the San Mateo Athletic Club or Community Education – are committed to the success of Auxiliary Services.

Maxine Terner, a member of the public, asked how and why a new, large demolition and new construction project (Building 19) was added to the capital projects between the time that the EIR Notice of Preparation went out in May and the time that the EIR came out for review. President Miljanich explained that this portion of the Board meeting is set aside to hear statements from members of the public but the Board is not allowed to engage in dialogue about an item that is not on the agenda. She said José Nuñez, Vice Chancellor of Facilities Planning, Maintenance and Operations, will follow up with an email response to Ms. Terner.

Donna Bischoff, a member of the public, said she has complained to the District about watering on the College of San Mateo campus in the middle of the day and watering in general. She said she was provided information on the District’s water conservation efforts. She said she was horrified to see that in July and August, new sod was being put in for the North Gateway project. She said she does not believe there is a correlation between positive student outcomes and the amount of sod on a campus. She said sod uses water and manpower and produces pollution and runoff. She said the District’s efforts to conserve water are positive, but she asked that the District reconsider putting in sod on the campuses.

**NEW BUSINESS**

**APPROVAL OF PERSONNEL ITEMS: CHANGES IN ASSIGNMENT, COMPENSATION, PLACEMENT, LEAVES, STAFF ALLOCATIONS AND CLASSIFICATION OF ACADEMIC AND CLASSIFIED PERSONNEL (15-9-3A)**

It was moved by Trustee Holober and seconded by Trustee Mohr to approve the items in the report. Vice President Mandelkern asked for confirmation that the normal hiring process was followed for all appointments listed on the report. Vice Chancellor Eugene Whitlock said the hiring process was followed for all positions except reclassifications, which are not subject to the hiring process. The motion carried, all members voting Aye.

**APPROVAL OF CONSENT AGENDA**

President Miljanich said the consent agenda consists of board reports 15-9-1CA through 15-9-9CA as listed on the printed agenda. Trustee Schwarz requested that items 15-9-6CA and 15-9-7CA be removed from the consent agenda for further discussion. It was moved by Trustee Mohr and seconded by Trustee Holober to approve the remaining items on the consent agenda. The motion carried, all members voting Aye.

**ACCEPTANCE OF PROGRAM SELF-EVALUATION FOR THE COLLEGE OF SAN MATEO CHILD DEVELOPMENT CENTER AND SKYLINE COLLEGE EARLY LEARNING & CHILD DEVELOPMENT CENTER (15-9-6CA)**

It was moved by Trustee Schwarz and seconded by Vice President Mandelkern to accept the self-evaluation. Trustee Schwarz said the board report indicates that the self-evaluation will be presented to parents of children enrolled in the Centers. She asked if they will receive copies of this written report or if it will be a verbal report. Executive Vice Chancellor Blackwood said she believes the parents will receive a verbal report and that the written report will be posted on the website. Trustee Schwarz said she would like the Board to have an opportunity to attend a session at which a verbal report is presented and asked that the Board be notified about the scheduling of the sessions. Trustee Mohr said it would be helpful for the Board to have a summary of findings rather than the lengthy report. Chancellor Galatolo suggested that the District seek Board approval tonight and follow up with a summary of findings and a timeline for the verbal reports to parents. After this discussion, the motion to accept the self-evaluation carried, all members voting Aye.
APPROVAL OF APPOINTMENT OF OFFICIAL REPRESENTATIVES TO THE ADULT-EDUCATION COLLEGE AND CAREER EDUCATIONAL LEADERSHIP (ACCEL); AGREEMENT TO REPORT ON FUND USE AND OUTCOMES; AND AGREEMENT TO RULES AND PROCEDURES (15-9-7CA)

It was moved by Trustee Schwarz and seconded by Trustee Holober to approve the governance structure as detailed in the report. Trustee Schwarz said the report is lengthy and it might be helpful for the Board to receive a brief presentation on ACCEL. Gregory Anderson, Vice President of Instruction at Cañada College, said this report is simply a request for the Board to accept the governance and funding structure of ACCEL as required by the State. Chancellor Galatolo said ACCEL is an ongoing program and reports will continue to be provided periodically. After this discussion, the motion carried, all members voting Aye.

Other Recommendations

APPROVAL OF DISTANCE EDUCATION SUBSTANTIVE CHANGE PROPOSAL FOR SKYLINE COLLEGE TO BE SUBMITTED TO THE ACCREDITING COMMISSION FOR COMMUNITY AND JUNIOR COLLEGES (ACCJC) (15-9-1B)

It was moved by Trustee Mohr and seconded by Trustee Holober to approve the proposal as detailed in the report. The motion carried, all members voting Aye. Trustee Mohr said he appreciates the inclusion of a process for students to evaluate whether they are ready for online learning and the availability of advising and counseling.

ADOPTION OF DISTRICT STRATEGIC PLAN (15-9-2B)

It was moved by Trustee Schwarz and seconded by Trustee Mohr to adopt the Strategic Plan as presented. Executive Vice Chancellor Blackwood said development of the Strategic Plan began in September 2014 and was spearheaded by two committees. The Strategic Plan Steering Committee was composed of two Board members, Chancellor, College Presidents, President of the District Academic Senate, Deputy and Executive Vice Chancellors, Vice Chancellor(s) of Educational Services and Planning, and Director of Community and Government Relations. The District Strategic Planning Task Force was composed of the same group, minus the two Board members and adding the College Researchers and College Academic Senate Presidents. In addition, Rick Voorhees and Tom Gonzales of the Voorhees Group provided assistance.

Executive Vice Chancellor Blackwood said multiple forums were held to discuss: (1) the planning process, including the environmental scan and planning assumptions; (2) Districtwide data including trends for demographic shifts, instructional program trends, degrees and certificates awarded, and student success; and (3) draft goals and strategies. Executive Vice Chancellor Blackwood said she received many subsequent emails and telephone calls which provided extensive additional information and revisions to the goals and strategies. Presentations were made to District and College participatory governance groups and to the Board. District Academic Senate President Bennett said the Strategic Plan was discussed and reviewed at the District Academic Senate and local Senate levels and faculty provided significant input. She said she is confident that faculty had adequate opportunity to engage in the process.

Jamillah Moore, Vice Chancellor of Educational Services and Planning, noted that the Board has had an excellent vision regarding student access and success and said the Strategic Plan goals are aligned with the Boards goals. She outlined each of the four strategic goals and discussed how they are aligned with Board goals.

Executive Vice Chancellor Blackwood said the Strategic Plan is also tied to resource allocation. She said the new resource allocation model includes annual funding for an Innovation Fund to support program development. Executive Vice Chancellor Blackwood said that when she builds the budget each year, she also includes budgeting for two years out. She said that for this budget cycle, she included ongoing money in each year to continue to expand and achieve the goals of the Strategic Plan. She said staff will brief the Board at the annual retreat and again at the end of the year on how the money was spent and what was achieved.

Vice Chancellor Moore said the Strategic Plan is accompanied by a set of metrics and planning assumptions. She said the metrics are a summary of data-driven trends and their implications and are a work in progress. The planning assumptions are statements that shape the planning process and create a shared future vision. Vice Chancellor Moore said the Strategic Plan is grounded in its foundation in the Colleges’ Educational Master Plans. She said the programs included in the Strategic Plan are the Middle Colleges at Cañada College and Skyline College; Project Change at College of San Mateo; and the SparkPoint Centers at Cañada College and Skyline College. Vice Chancellor Moore said there is work to be done, but those involved in the planning process believe the Strategic Plan is a working document that addresses the
importance of access, equity and completion. She said the Board will receive ongoing updates and will engage in
dialogue regarding progress and what adjustments might need to be made.

Vice Chancellor Moore said three students will describe their experiences in existing programs.

Nick is a student who participated in Project Change, which serves youth who have been through the juvenile justice
system. He said the program provides support that is not of the ordinary. He said he is the first in his family to attend
college and he did not understand the process. He said Project Change guided him through it and also provided financial
help for textbooks. He said he realized he could either continue on the path he was on or become whatever he wanted to
be. Nick said he is leaving tomorrow to join AmeriCorps. He said he would not have been able to accomplish what he
has without the help of Project Change. Vice President Mandelkern asked Nick about his educational goals. Nick said his
long-term goal is to become a firefighter and eventually a chief. He said he wants to get a dual major in Fire Science and
Sociology and transfer to a four-year institution to earn a degree.

Alexandra Wildman, a student at the Middle College at Cañada College, said attending Middle College was the best
decision she has ever made. She said students experience “culture shock” when they first arrive at the Middle College;
however, the weeklong orientation provides the opportunity to explore the campus and be introduced to resources and
services that are not available at the high schools. She said that the Middle College teachers are also the students’
counselors and they help students every step of the way. Ms. Wildman said Middle College students are fully integrated
into the campus. She currently serves as Vice President of the Associated Students of Cañada College (ASCC) and other
Middle College students serve on the ASCC Board with her. Vice President Mandelkern asked Ms. Wildman about her
educational goals. Ms. Wildman said she is interested in Public Health. She hopes to eventually earn a Ph.D. and work
for the National Institutes of Health.

Monique Hernandez said she is a single mother who returned to school at Skyline College after taking ten years off. She
said her EOPS Counselor advised her of the resources and services available on campus and connected her with the
SparkPoint Center and with a job opportunity. She said SparkPoint has had a tremendous impact on her life. She was
able to gain access to services for which she was eligible, receive credit counseling and improve her credit score, and
meet with a financial coach to learn how to budget and build plans for the future. She said she not only gained advocates,
but learned how to become an advocate for herself. She said she was able to help other students through her job at
SparkPoint and witnessed the impact of the Food Pantry and Grove Scholarships for students in need. Ms. Hernandez
said she transferred from Skyline College and is now in her second year at San Francisco State University. Her goal is to
earn a doctorate in marriage and family therapy.

Trustee Schwarz thanked the students for their comments. She said it is gratifying to hear of their success and said she is
happy that the District offers such opportunities for students. She said she is pleased that Middle College students have
become more and more involved in campus life.

Executive Vice Chancellor Blackwood thanked the students for sharing their stories. She also thanked the College
Researchers who provided a multitude of data to the Voorhees Group; Sue Harrison, Roxanne Brewer and Ginny Brooks
for editing assistance; everyone who came to forums and meetings to participate in the process; and the Board for
encouraging and directing the development of the Strategic Plan. She expressed special thanks to Trustees Holober and
Mohr who served on the Steering Committee.

Trustee Schwarz thanked Trustees Holober and Mohr for giving their time and providing information to the entire Board.
She said she agrees that having a working document that can be tweaked as needed is the appropriate road to take.

Trustee Mohr said the Strategic Plan is the means by which the Board gives direction to the District. He said it is also the
platform by which partnerships are formed throughout the District and how discourse is conducted around the well-being
of students. He said it provides the opportunity to understand the kinds of investments the District is making in students.
Trustee Mohr said he appreciates the tremendous effort that has gone into the development of the Strategic Plan. He said
it is very explicit and goes to the heart of the matter.

Vice President Mandelkern thanked everyone at the District and Colleges who participated in the strategic planning
process, along with Trustees Holober and Mohr. Vice President Mandelkern said he appreciates the inclusion of the
SWOT (strengths, weaknesses, opportunities and threats) Analysis. He suggested that the Strategic Plan also address:
1. remediation of the anticipated retirement of a number of key employees
2. the competitive dynamic with for-profit colleges

Vice President Mandelkern said his suggestions are the opinion of only one Board member and are meant to be constructive.

Trustee Holober acknowledged Trustee Mohr’s important role in how the Strategic Plan evolved. He said Trustee Mohr repeatedly stressed the Board’s role in establishing and measuring goals and having accountability around academic performance, etc. He said this is a crucial element of the Strategic Plan. Trustee Holober said another important concept in the document is timing; the District is experiencing relatively good times economically, allowing it to enhance academic offerings. He said the focus on equity and justice, bringing added resources to bear on targeted populations who could benefit from having access and the ability to succeed, is a key message.

Trustee Holober said it is very important to acknowledge and understand that the Strategic Plan is a working document and that the metrics are placeholder numbers rather than directives. Vice President Mandelkern agreed and said he hopes the metrics will be revisited and honed quite frequently.

Trustee Holober said Strategic Goal #4 evolved over the course of the writing of the Plan. He said it originally spoke only to entrepreneurial activities but now addresses three areas which he said he believes should be ranked in importance as follows:

1. Preserve the District’s community-supported status
2. Be prudent in how money is spent, i.e. utilize program review
3. Entrepreneurial activities

Trustee Holober said the Board has had debate on some entrepreneurial activities, reflecting differing philosophies on what kinds of activities are appropriate. He said he believes there should be full-fledged Board discussions when embarking on entrepreneurial activities.

Student Trustee Bajwa said the District Student Council discussed the Strategic Plan and supports it enthusiastically. He said he is pleased that it is a living document and that its title includes “Students First.”

Vice President Mandelkern said he believes the issue of job placement as a goal could be expanded upon and improved in Goal #2. He said he also would like to see metrics around this issue.

With regard to the issue of student success in Goal #2, Vice President Mandelkern said the State-mandated metrics are still being used and he would like to see a more individualized look at the District’s students’ goals. He said believes that students who accomplish what they came to the Colleges to do should be recorded as successes. Trustee Mohr said this issue was discussed extensively. He said it is assumed that data will be brought back over a period of time by the College researchers and definitions need to be brought together soon. Trustee Mohr added that he believes there is a strong need for a researcher at the District Office. Trustee Holober said Goal #1 includes the State-mandated metrics on transfer and degree/certificate completion. He said an additional metric could speak to students who complete an educational plan indicating that their goal is to brush up on skills and then achieve that goal. Executive Vice Chancellor Blackwood said most students who take only one or two courses do not complete an educational plan, making it difficult to obtain data. She said 65% to 70% of District students complete educational plans. Vice President Mandelkern said metrics are critical and he would like to see 100% of students complete educational plans. Chancellor Galatolo said he believes the focus for developing metrics should first be on current initiatives, e.g. Middle College, First Year Experience and Project Change.

Vice President Mandelkern said he believes that protecting the District’s community-supported status is the most significant factor in Goal #4. He asked about the metric regarding building coalitions among other community-supported districts. Chancellor Galatolo said protecting the District’s status is a primary focus. He said the District has attempted to form coalitions; however, this has proven difficult because of the small number of community-supported districts and the frequent leadership changes within those districts. Vice President Mandelkern said this is one of the most significant issues for the District and he would be open to suggestions on developing metrics. President Miljanich said it would be difficult to develop meaningful metrics for this issue. She noted that Chancellor Galatolo has shown great leadership in this area.
Vice President Mandelkern said the Strategic Plan does not address how to replicate successful programs, such as MathJam and Writing in the End Zone, across the campuses. He said he hopes this will be addressed moving forward. Trustee Schwarz said this has been discussed when presentations are made to the Board. She said she believes each College should decide if a program would work on its campus. She said she appreciates the diversity of what occurs at each College. President Claire said each campus has its own personality, but this does not prevent them from considering ideas from the other Colleges. Trustee Mohr said the Strategic Plan brings the Colleges closer together than they were before. Vice President Mandelkern said he believes it is important to examine best practices and he hopes successful programs will be applied across the District when it makes sense. President Stanback Stroud said there is a culture of collaboration in the District and the Colleges are willing to learn from each other.

President Miljanich said she appreciates the focus on connecting Board goals with the goals in the Strategic Plan. She said she understands that the Strategic Plan is a work in progress and she appreciates everything that has been done to this point.

After this discussion, the motion to adopt the Strategic Plan carried, all members voting Aye.

ADOPTION OF RESOLUTION NO. 15-27 CALLING ON THE ACCREDITING COMMISSION FOR COMMUNITY AND JUNIOR COLLEGES TO GRANT CITY COLLEGE OF SAN FRANCISCO FULL ACCREDITATION (15-9-3B)

It was moved by Trustee Mohr and seconded by Trustee Schwarz to adopt Resolution No. 15-27. The motion carried, all members voting Aye.

APPROVAL OF SOLE SOURCE PURCHASE OF PRECOR FITNESS EQUIPMENT (15-9-100B)

It was moved by Trustee Mohr and seconded by Trustee Schwarz to approve the sole source purchase as detailed in the report. The motion carried, with Trustees Holober, Miljanich, Mohr and Schwarz voting Aye. Vice President Mandelkern had stepped away from the meeting during consideration of this item and did not cast a vote.

APPROVAL OF CONTRACT AWARD FOR CAPITAL IMPROVEMENT PROGRAM PHASE 3 (CIP3) CONSTRUCTION MANAGEMENT SERVICES (15-9-101B)

It was moved by Trustee Mohr and seconded by Trustee Schwarz to approve the contract as detailed in the report. Ms. Terner asked how the Board can vote to authorize projects before the EIR is certified. Karen Powell, Executive Director of Facilities Planning and Operations, said the District is precluded from moving forward with construction until the EIR is certified; however, the District’s counsel and environmental consulting firm have both confirmed that it is appropriate and usual to engage in planning efforts. Ms. Terner said that if a project does not make it through the CEQA process, the District will have wasted money on a project that cannot be built. President Miljanich said the District will be prepared and ready to begin when a project does make it through the process. Ms. Powell said the schedule to complete the EIR comment period and adopt the plan dovetails well with the timing to initiate the detail design for the projects. She said it is unlikely that the detail design will get underway or incur significant costs before the EIR is certified.

Trustee Holober asked about the timeframe for the CEQA process. Ms. Powell said staff hopes to be able to ask the Board to certify the plan at its December meeting, after the close of the comment period. Trustee Holober asked about the timeframe during which the money for the proposed Swinerton contract would be expended. Vice Chancellor Nuñez said the proposed contract period is seven years. Chancellor Galatolo said expenses would be incurred largely subsequent to the CEQA review and when construction begins. Vice President Mandelkern noted that the proposed construction management contract includes all projects in CIP3; therefore, if a project is challenged, many other projects could still move forward. He said it is important to keep spending in line with projects that have been authorized by the Board.

After this discussion, the motion to approve the contract award carried, all members voting Aye.

AUTHORIZATION FOR CAPITAL IMPROVEMENT PROGRAM PHASE 3 (CIP3) PROJECT DELIVERY METHODS, PHASE ONE PROJECTS (15-9-102B)

It was moved by Trustee Schwarz and seconded by Trustee Mohr to authorize the delivery methods as detailed in the report. Ms. Bischoff said the report includes the planned demolition of Buildings 20 and 20A at College of San Mateo. Chancellor Galatolo said this is planned pending the outcome of the State Supreme Court decision.
Trustee Holober asked what the projected cost of the first-wave projects is. Vice Chancellor Nuñez said the cost for the first seven projects is $362 million. The total cost for all projects is $481 to $530 million. Trustee Holober said he has raised reservations regarding priorities, particularly with regard to Cañada College Building 1. He said this project has more than doubled in size since the time the District was estimating projects for the general obligation bond ballot measure. He said he would prefer to remove this project from the list pending the outcome of a potential Statewide facilities bond which will be on the ballot in 2016 and would allot the District approximately $29 million. Vice Chancellor Nuñez said the Statewide bond is not applicable to the Cañada College Building 1 project. President Miljanich said she is not in favor of removing this project. She said she does not feel qualified to override the Colleges’ determination of the needs for their campuses. Trustee Mohr said he is very comfortable with moving forward with the project. He said College faculty and staff are very much in touch with the needs of the community and students they serve. He said there is a lack of equity when comparing the current facility with the facilities on the other campuses. Trustee Mohr said students deserve something better for their entire well-being and he believes this is why faculty and staff brought the project forward as a top priority.

Trustee Holober said he does not question the need for a new state-of-the-art facility at Cañada College to serve the needs of students and the community. He said he is concerned with the expansion of the project, largely to accommodate an athletic club for the surrounding community. He said he has concerns about the way the current athletic club at College of San Mateo is operated, including employment issues.

Vice President Mandelkern asked if there is prioritization among the seven first-wave projects. Vice Chancellor Nuñez said there is a sequence of projects, with the Cañada College Kinesiology and Skyline College Environmental buildings coming first, followed by the Math/Science building at Cañada College. He said there is only a one month gap between projects. Vice President Mandelkern said he would prioritize the Math/Science building first because of the critical demand for educational facilities. Chancellor Galatolo said that, while the new Math/Science building will improve the labs that are currently available in Buildings 16/18, classes and labs can still be held in the current building. He said Building 1 is critical because the facility has become a drain on the institution in terms of the effectiveness of classes conducted in the building. Chancellor Galatolo said the plan to expand Building 1 to include a fitness facility will largely underwrite the cost of replacing the current facility.

Trustee Schwarz said she appreciates that the report reflects what the Board requested, which was for the faculty and staff at the Colleges to prioritize projects and identify appropriate delivery methods. She said she supports the request for authorization as it is.

Ms. Terner said that when the Measure C bond measure passed, Chancellor Galatolo said the District would be able to complete all of the improvements in the Facilities Master Plan that was in place at the time. She said that after the District hired Steinberg Architects, it did an inadequate CEQA review process and destroyed the historic campus at College of San Mateo by tearing down buildings and replacing them with large, extravagant buildings. Ms. Terner said she believes the Board has been given bad advice by Chancellor Galatolo and some of the architects and planners hired by the District. She said the educational programs at the Colleges seem wonderful but she believes the District has been wasteful on construction projects.

Vice President Mandelkern said the recommended delivery method for four of the first-wave projects is Construction Management at Risk (CMAR). He said the District does not have experience with this method but has had previous success with the Design-Build method. He suggested that the CMAR method might be used on one project first to see how it works. Ms. Powell said many of the most reputable and experienced contractors in the District’s market are pursuing work only under CMAR and have said they will not pursue hard bid contracts. She also said staff has worked to select the method that best mitigates risks associated with particular projects. She said staff believes the District will get the best value by using CMAR for the four projects, without taking on undue liability for errors and omissions in the design documents. Trustee Mohr said he did considerable reading on the CMAR method. He said it has significant advantages, including pre-construction services; constructability expertise throughout the project; cost estimating done upfront; budgeting schedule more carefully laid out; and guaranteed cost of the work.

After this discussion, the motion to authorize the CIP3 project delivery methods for the phase one projects carried, with Trustees Mandelkern, Miljanich, Mohr and Schwarz voting Aye and Trustee Holober voting No.
ADOPTION OF RESOLUTION NO. 15-28 REGARDING BOARD ABSENCE (15-9-103B)

It was moved by Trustee Holober and seconded by Trustee Schwarz to adopt the resolution as detailed in the report. The motion carried, with Trustees Holober, Mandelkern, Mohr and Schwarz voting Aye and President Miljanich abstaining.

At this time, the Board agreed to table Information Reports 15-9-4C, A Discussion of Liabilities, and 15-9-5C, Discussion of Board of Trustees Self-Evaluation. These items will be presented at a future meeting.

COMMUNICATIONS

President Miljanich said the Board received an invitation to participate in the Policy Advisory Committee for the San Mateo County sea level rise vulnerability assessment. The first meeting will take place on the morning of October 7. Trustee Mohr has volunteered to attend the meeting and report back to the Board. President Miljanich said the Board also received an email from a candidate for the ACCT Diversity Committee asking for Board members' support.

STATEMENTS FROM BOARD MEMBERS

Trustee Schwarz said she attended the Skyline College Success Summit which was very well done. She said housing and transportation continue to be the two most significant issues facing the County. She said she was particularly interested in two ideas that were discussed: (1) the possibility of partnering with city shuttles, and (2) using pipe bursting to repair pipes. Vice Chancellor Nuñez said pipe bursting has been used on all three campuses.

Vice President Mandelkern said he visited the Bay Area Entrepreneur Center of Skyline College. He said it is an impressive facility located in the heart of the San Bruno community. He said the BAEC and the Small Business Development Center both provide opportunities to fulfill the mission of reaching out to the community to provide resources. Vice President Mandelkern said he attended the Skyline College Success Summit. He said the content and speakers, including Chancellor Galatolo, were first rate and he hopes this event will continue to grow.

Trustee Holober said he submitted a third party comment to the Department of Education on its review of the ACCJC. He said he addressed the finding that the ACCJC does not have acceptance by the educational community and said he agreed with this finding. He said he will forward his comments to the rest of the Board.

Trustee Mohr said he attended a meeting of an advisory committee composed of SMCCCD members and Sequoia Union High School District members to consider cooperating in the development of a new school. He quoted from a statement of the Sequoia Union High School governing board which indicates that they are interested in a Small School with content-specific courses that would provide students with practical and theoretical knowledge to apply in work-based learning environments, i.e. linked learning. Trustee Mohr said he believed it was the intention of the SMCCCD Board to join with the Sequoia District in the formation of an Early College High School which is a different concept than linked learning. He said he and Vice President Anderson will be attending another committee meeting and he will report back to the Board. Trustee Schwarz and Vice President Mandelkern said they agree that the Board should hold further discussions on this issue.

Trustee Mohr said the executive reports submitted to the Board as part of the board packets are superlative. He said activities offered to students outside of the classroom are superior to many universities and take the educational process to a very high level.

Student Trustee Bajwa said student leaders at the Colleges have identified issues and concerns that affect students and have brought them to the District Student Council. He said the Council is looking at ways to address the issues. He said student body fees have not changed since 2001 and a recommendation to increase the fees may come to the Board for consideration. Student Trustee Bajwa said the Board will be invited to attend District Student Council meetings at which certain issues are addressed.

RECESS TO CLOSED SESSION

President Miljanich said that during Closed Session, the Board will (1) consider the personnel items listed as 1A and 1B on the printed agenda, (2) hold a conference with legal counsel regarding three cases of potential litigation as listed on the printed agenda, and (3) hold a conference with agency labor negotiator Eugene Whitlock; the employee organizations are AFT, AFSCME and CSEA.

The Board recessed to Closed Session at 9:05 p.m.
CLOSED SESSION ACTIONS TAKEN
President Miljanich announced that at the closed session just concluded, the Board took action to suspend an Instructional Aide.

ADJOURNMENT
It was moved by Trustee Holober and seconded by Trustee Schwarz to adjourn the meeting. The motion carried, all members voting Aye. The meeting was adjourned at 10:15 p.m. in memory of Dr. Jack Fiedler.

Submitted by

Ron Galatolo, Secretary

Approved and entered into the proceedings of the October 14, 2015 meeting.

Dave Mandelkern, Vice President-Clerk
