The meeting was called to order at 5:00 p.m.

Board Members Present: Vice President Thomas Mohr, Trustees Maurice Goodman, Richard Holober and Karen Schwarz

ANNOUNCEMENT OF CLOSED SESSION ITEMS FOR DISCUSSION
Vice President Mohr said that during Closed Session, the Board will hold a conference with Agency Labor Negotiator Eugene Whitlock; the employee organizations are AFT and CSEA.

PUBLIC COMMENTS ON CLOSED SESSION ITEMS ONLY
None

RECESS TO CLOSED SESSION
The Board recessed to Closed Session at 5:00 p.m.

RECONVENE TO OPEN SESSION
The Board reconvened to Open Session at 6:00 p.m.

Vice President Mohr announced that President Mandelkern was unable to attend the meeting.

Board Members Present: Vice President Thomas Mohr, Trustees Maurice Goodman, Richard Holober and Karen Schwarz

Others Present: Chancellor Ron Galatolo, Executive Vice Chancellor Kathy Blackwood, Skyline College Vice President of Administrative Services Eloisa Briones, College of San Mateo President Michael Claire, Cañada College President Jamillah Moore, District Academic Senate President Leigh Anne Shaw

Pledge of Allegiance

DISCUSSION OF THE ORDER OF THE AGENDA
None

ANNOUNCEMENT OF REPORTABLE ACTION TAKEN IN CLOSED SESSION
Vice President Mohr said the Board took no action during Closed Session.

MINUTES
It was moved by Trustee Holober and seconded by Trustee Goodman to approve the minutes of the meeting of October 26, 2016. The motion carried, all members voting Aye.

STATEMENTS FROM EXECUTIVES AND STUDENT REPRESENTATIVES
District Academic Senate President Shaw said the District Participatory Governing Council is discussing collegial consultation, especially in the face of the many plans coming to community colleges at a rapid pace. She said the Basic Skills, Student Equity, and Student Success and Support Program (SSSP) plans have been put on a one-year suspension to allow the State Chancellor’s Office to determine how to combine these into one plan. She said she believes this provides an excellent opportunity for the District to examine its consultation process and make sure that all constituents have adequate time to weigh in on the many complicated plans that will be coming forward. President Shaw said that at Fall Plenary of the Academic Senate for California Community Colleges, faculty learned details about the Statewide Strong Workforce Program. To be eligible to receive funding for the programs, districts must submit their plans by January 31. President Shaw said there are only two or three Academic Senate meetings before that deadline and she encouraged the Colleges and District to engage faculty in preparation of the Strong Workforce Program plan.
Cindy Streitenberger, President of the Associated Students of Cañada College (ASCC) and Rebecca Chow, ASCC Vice President, highlighted the organization’s three main goals for the semester: gender neutral, single stall restrooms; a child care center at Cañada College; and a meditation room for students. They reported on Fall 2016 ASCC events including Welcome Week, Spirit Week, Club Rush, Constitution and Election Day events, Halloween event, voter registration tabling, U.S. presidential debate watch, Dia de los Muertos events, and International Celebration. In addition, ASCC sponsored several events which included Veterans Appreciation Week, Dance Motion X, San Francisco Mission District Art Tour, College for Working Adults brown bag dinners, tours of the UC Davis, Monterey Bay and University of the Pacific campuses, Cañada College library event, and a Macario field trip. In December, ASCC will hold a two-day event, Treat Yo’Self, focusing on healing and hope.

Ms. Streitenberger and Ms. Chow described recent ASCC highlights, including being chosen as one of twenty-five colleges in the state to receive a $10,000 Campus Impact Grant and collaborating with the Wellness Center and DREAMers to create Safe Spaces. Through the Access to School Supplies Initiative, ASCC provided more than 12,000 free prints and copies of homework and essays this semester. The Student Transportation Initiative provided 4,200 rides this semester and 11,000 rides since the start of the program last year. Meetings with SamTrans have been held to discuss a more sustainable student discount program.

Ms. Streitenberger and Ms. Chow reported on conferences attended by students, including the CCCSAA Conference, the “Catch All the Possibilities” Leadership Retreat, the California Community Colleges Student Leadership Retreat and the National Conference on Student Leadership. In addition, Cañada College created and hosted the first statewide Social Justice “PreCon” at the Museum of Tolerance, hosting fifty students from eight California community colleges.

Ms. Streitenberger and Ms. Chow thanked the Board for their continued support of students.

Trustee Schwarz asked the students to expand on the concept of a meditation room. Ms. Chow said this is in response to students who expressed the need for a safe and respectful space on campus for students who want to de-stress or pray.

Trustee Schwarz asked if ASCC is offering programs to night students. Ms. Streitenberger said students have served brown bag dinners to night students and also repeat daytime events for the evening students.

Trustee Schwarz asked if the transportation initiative involves only SamTrans or includes other alternatives such as carpooling. Ms. Chow said the program has concentrated on procuring discounted tokens from SamTrans.

Trustee Schwarz congratulated Ms. Streitenberger and Ms. Chow on the wonderful things ASCC is accomplishing. She said they set an example for other students.

Trustee Holober congratulated Ms. Streitenberger and Ms. Chow for the excellent work they do. He said their Prezi presentation was impressive.

Vice President Mohr thanked Ms. Streitenberger and Ms. Chow for their report. He also thanked them for participating in the discussion on race and equity at the last Board meeting. He said their comments had a great deal of meaning.

STATEMENTS FROM THE PUBLIC ON NON-AGENDA ITEMS
Amber Steele, Professor of Dance at Skyline College, shared the following comments from faculty members in response to AFT’s prompt, “Faculty deserve a fair contract now because. . .”

Driving student success requires a community of faculty that is enabled to succeed through equitable workload practices.

Adjunct faculty deserve the same rate of pay as full-time faculty when it comes to teaching classes. They do the same job, don’t they? We also need more adjuncts to be made full-timers so they receive the same benefits exactly.

We are where the rubber meets the road. We are the ones who are delivering the education our students want and need. The district needs to negotiate in good faith.
Teeka James, Professor of English at College of San Mateo and current Secretary and Past President of AFT, read additional statements from faculty:

Faculty workload continues to increase, yet the District wants faculty to accept smaller pay increases while undergoing additional evaluation, and will not consider AFT 1493’s reasonable proposal for increasing workload equity. All at a time when the District is in its strongest financial position in many years. Doesn’t sound fair to me!

We have worked tirelessly to support our students and this community. Part-time and full-time, we have served this district, doing our best to respond intelligently and responsibly to every new initiative that comes down the pike. Yet, the district’s proposals for contract changes indicate to us that you don’t trust us to do our jobs. That really hurts.

“The single most important factor in determining [student] achievement is not the color of their skin or where they come from. It’s not who their parents are or how much money they have. It’s who their teacher is.” President Barack Obama

Elisabeth O’Campo, a student attending classes at each of the Colleges, said she believes that arming public safety officers on campus would turn the campuses into hostile environments. She said this would make it difficult for students who came to the community colleges to improve their lives and get away from the hostile environments in which they were raised.

Daniel Casillas, a student at College of San Mateo, said he believes that arming officers would militarize the campuses. He said he is concerned about targeting of students. He said students were not given adequate notice about the public forums that were held and he wants to make sure students have an opportunity to provide input. He said student surveys have been conducted and the results indicate that students are leaning toward not having armed officers on campus.

Alfredo Olguin Jr., a student at Skyline College and College of San Mateo, said he wants the campuses to be safe but that simply arming officers will not solve underlying issues that exist within the County. He said communities have become more militarized and he is concerned this could happen at the Colleges as well. He encouraged more outreach to students.

Dontario Beverly, a student at College of San Mateo, said he is not in support of arming officers on campus. He said he believes that giving people guns changes the way they think and view other people.

Vice President Mohr thanked the students for taking the time to come to the meeting and express their beliefs. He said there will be additional public meetings and the Board will also discuss the issue thoroughly at public Board meetings. He encouraged everyone to participate in all discussions so that their voices may be heard. Vice President Mohr said the Board recognizes that in large part the Colleges belong to the students. He said the Board will do everything possible to carry out its duties with integrity, caution, balance and concern for what is in the best interest of students.

Trustee Goodman thanked the students for their comments and said their voices are welcome. He encouraged students to remain engaged by coming to meetings and participating in all issues that affect them.

Trustee Schwarz said she would be interested in seeing the results of the student survey referenced in the comments by students. Ms. O’Campo said the results will be shared with the Board.

**BOARD SERIES PRESENTATION – INNOVATIONS IN TEACHING, LEARNING AND SUPPORT SERVICES: THE SKYLINE COLLEGE PROMISE – GET IN: THE SUMMER SCHOLARS INSTITUTE (16-11-1C)**

Aaron McVean, Interim Vice President of Instruction at Skyline College, said this will be the first in a series of presentations on the Skyline College Promise, a comprehensive approach to ensuring that students “Get In, Get Through, and Get Out…On-Time” according to their educational goals. He said the Summer Scholars Institute focuses on the “Get In” entry point. During development of the Skyline College Promise, College leaders confronted the fact that placing students below transfer level English and math classes was fundamentally sentencing them to failure. At the March 2016 Leadership Retreat, it was determined that the Summer Scholars Institute, designed to make sure that students are placed in transfer level English and math classes, could be put into place right away, along with the Promise Scholarship Program.
Mary Gutierrez, Dean of Language Arts/Learning Resources, said the Skyline College Promise supports and is supported by the District Strategic Plan. It is aligned with Strategic Goal #1, “Develop and strengthen educational offerings, interventions, and support programs that increase student access and success” and Goal #2, “Establish and expand relationships with school districts, four-year college partners, and community-organized businesses to increase higher education attainment in San Mateo County.”

Michael Stokes, Director of TRiO at Skyline College, discussed the components and schedule of the Summer Scholars Institute. The program is open to graduating high school seniors or GED recipients who intend to enroll as full-time students at Skyline College in the fall semester. It is a five-week program which meets Monday through Thursday from 9:00 a.m. to 4:30 p.m. Weekly themes are embedded in the courses. Students develop critical foundational skills in math, English/writing, career development, major exploration, identity development, and college acclimation and ownership. In addition, the program includes social and community service components outside the classroom.

Miranda Wang, a math faculty member, said key data show promising results for the Summer Scholars Institute, with 54 out of 58 students having enrolled in a transferable math course. The program uses ALEKS, an online software assessment and learning tool which identifies mastery of specific topics in a course. Summer Scholars Institute students’ growth in mastery of statistics and trigonometry topics at the end of the five-week period was very encouraging.

Luis Escobar, Dean of Counseling, Advising and Matriculation, shared additional results on Summer Scholars Institute students: there was a 96.6% CRER 137 course success rate; 98.3% of students registered for fall classes; 96.5% of students enrolled in a transferable English course; and 98.2% of students have completed a student education plan. Dean Escobar said student feedback on the program has been very positive.

Mr. Stokes discussed program costs. The total cost for the Summer Scholars Institute was $96,166.46, including both compensation and non-compensation expenses. With 58 out of 60 students completing the five-week program, the cost per student was $1,602.77.

Naomi Quizon, a student who completed the Summer Scholars Institute, said it provided rigorous training for the fall semester and also brought to light the many resources available on campus. She said it provided an environment of cohesiveness with other students. Ms. Quizon said she would like to see the program expanded.

Trustee Schwarz asked how many students applied for the program. Mr. Stokes said there were 110 applications. He said the goal is to expand to 90 students. He said one-week and three-week models are also being explored.

Vice President Mohr said the program provides an opportunity to build student confidence and remove obstacles. He said he would like to receive a report in the future on the level of success of the students in their subsequent years.

NEW BUSINESS

APPROVAL OF PERSONNEL ITEMS: CHANGES IN ASSIGNMENT, COMPENSATION, PLACEMENT, LEAVES, STAFF ALLOCATIONS AND CLASSIFICATION OF ACADEMIC AND CLASSIFIED PERSONNEL (16-11-1A)

It was moved by Trustee Holober and seconded by Trustee Schwarz to approve the actions in the report. The motion carried, all members voting Aye.

APPROVAL OF CONSENT AGENDA

Vice President Mohr said the consent agenda consists of board reports 16-11-1CA and 16-11-2CA as listed on the printed agenda. It was moved by Trustee Goodman and seconded by Trustee Holober to approve the items on the consent agenda. The motion carried, all members voting Aye.

Other Recommendations

APPROVAL OF CONTRACT AWARD FOR SKYLINE COLLEGE BUILDING 12N, NEW ENVIRONMENTAL SCIENCE DESIGN-BUILD PROJECT (16-11-100B)

It was moved by Trustee Schwarz and seconded by Trustee Goodman to approve the contract award as detailed in the report. The motion carried, all members voting Aye.
APPROVAL OF CONTRACT AWARD FOR COLLEGE OF SAN MATEO TREES FIRE MITIGATION AND SAFETY PROJECT, PHASE III (16-11-101B)

It was moved by Trustee Goodman and seconded by Trustee Holober to approve the contract award as detailed in the report. Trustee Schwarz asked if neighbors need to be notified about the tree removal. Chancellor Galatolo said this is an ongoing program which was contemplated in the Environmental Impact Report that was completed. After this discussion, the motion carried, all members voting Aye.

APPROVAL OF CONTRACT AWARD FOR THE DISTRICTWIDE ELECTRIC VEHICLE CHARGING STATION EXPANSION PROJECT (16-11-102B)

It was moved by Trustee Schwarz and seconded by Trustee Holober to approve the contract award as detailed in the report. In response to a question from Trustee Holober, Vice Chancellor Nuñez confirmed that the twelve existing charging stations were fully funded by a grant from the California Energy Commission. As part of the grant agreement, use of the stations was to be at no cost for the first six months. The Board subsequently approved a fee structure for users other than faculty and staff. The proposed new stations will be funded by a $72,000 grant from the Bay Area Air Quality Management District and Measure H general obligation bond funds. Trustee Holober asked if the fees to be charged for the new stations will be sufficient to amortize the cost of installation as well as covering operational costs. Vice Chancellor Nuñez said it is his understanding that this will be the case. Trustee Holober said he is pleased that this is the arrangement. After this discussion, the motion carried, all members voting Aye.

APPROVAL OF SAN MATEO ATHLETIC CLUB FEE AND PLAN REVISIONS (16-11-103B)

It was moved by Trustee Schwarz and seconded by Trustee Goodman to approve the fee and plan revisions as detailed in the report. Trustee Holober asked about privacy rules for the EXOS Journey software program. He said there is a great deal of concern with the rapid growth of health-related apps that are not subject to the Health Insurance Portability and Accountability Act (HIPPA). Tom Bauer, Vice Chancellor of Auxiliary Services and Enterprise Operations, said he will confer with EXOS regarding the privacy policy and will send a response to the Board.

Vice President Mohr said he is puzzled about why the fee increase is being brought to the Board for approval while other fee increases, such as lab and health fees, are not. Vice Chancellor Bauer said the overall fee structure was approved as part of the establishment of the San Mateo Athletic Club (SMAC). He said bringing SMAC fee increases for approval is an exception. Trustee Schwarz said she appreciates seeing the proposed increases. Trustee Goodman said he believes having the information is beneficial and he suggested that it be placed on the consent agenda. Trustee Holober said he would be interested in hearing President Mandelkern’s thoughts on whether to continue bringing SMAC fee increases to the Board. The Board agreed to discuss this at a future meeting when all Board members are present. After this discussion, the motion carried, all members voting Aye.

AUTHORIZATION OF USE OF UNIVERSITY OF CALIFORNIA CONTRACT TO PURCHASE DISTRICT-WIDE ROOM SCHEDULING SOFTWARE FROM AD ASTRA (16-11-104B)

It was moved by Trustee Holober and seconded by Trustee Schwarz to approve the use of the contract as detailed in the report. The motion carried, all members voting Aye.

COMMUNICATIONS

None

STATEMENTS FROM BOARD MEMBERS

Trustee Holober reported on a job-related success that is connected to the recent discussions on race and equity because it directly impacts the rights of all consumers. Two weeks ago, the Federal Communications Commission, in a three to two vote, voted to enact sweeping broadband consumer privacy protections that will prevent broadband providers from giving customers' private data to third parties without the customers’ permission. The coalition that worked on the new rules included consumer groups, privacy groups and civil rights groups, including Color of Change.

Trustee Schwarz said she attended the recent New Hire Orientation at the District Office. She said the welcome and introductions by Chancellor Galatolo, union representatives, and staff from various departments were interesting and inspiring. She said the new hires were engaged and impressed with the feeling of community and family.

Trustee Mohr said he was unable to attend a meeting of the College of San Mateo Academic Senate to which he was invited and hopes to attend a future meeting to discuss matters of interest, particularly as they pertain to curriculum.
Vice President Mohr read the following statement submitted by President Mandelkern:

"To state the obvious, this has been a distressing twenty-four hours for many, if not all, of us. I do not want to dwell on the outcome of the election but I do have two thoughts to share with my colleagues, our administration, faculty, staff, students, and the public.

First, I applaud the content and sentiments expressed in the message posted by Trustee Goodman on Facebook today. I agree whole-heartedly. Now is the time to roll up our sleeves and work harder than ever to continue to make America greater than it ever has been.

Second, I would like to call attention to the plight of our undocumented students who have been able to continue their education, gain employment, get drivers licenses and social security numbers, etc. through the DACA (Deferred Action for Childhood Arrivals) Executive Order created in 2012 by President Obama. As an Executive Order, it is subject to change by a future President, and sadly I must assume it will likely be revoked on January 20th, 2017. DACA protections only last for two years and can be renewed if certain conditions are met. I would urge all of our students who are currently protected under DACA to investigate these provisions carefully and quickly in order to see if, in their individual cases, renewal is possible before January 20th, 2017 in order to extend their DACA protection status as long as possible. I would also like to request, with the consent of my fellow Trustees, that our administration, faculty, and staff provide whatever assistance is possible, and apply whatever additional resources may be necessary, to help these students continue and extend their protections under DACA so that they may continue their education at our colleges and continue living openly and safely in our community.

Thank you."

Vice President Mohr read the following email sent to the Board by Student Trustee Dennis Zheng:

“Good evening President Mandelkern, Board of Trustees, Chancellor Galatolo, and Presidents,

I am writing to you all from the bottom of my heart. I had very little sleep last night because all I could think about is my future and my loved ones' future. I came to America when I was ten years old and within the ten years, I learned and experienced what makes America great as a nation. I am privileged to be surrounded and immersed in diverse communities and cultures that this country prides itself on. I've met many wonderful people from various backgrounds, beliefs, and culture, and I am truly blessed to have these people as friends, mentors, and colleagues. It is these people that shaped me and guided me to where I am today. When I applied and became an American citizen, I had pride and honor when I swore under the American oath, but sadly, I cannot say the same today. As an immigrant and a person of color who came from a country with no democracy, no equality, and no freedom, I could not believe last night's election results. I fear for myself. I fear for the lives of my loved ones, who are from marginalized communities and who made me fell in love with this great nation. I feel betrayed and helpless. I feel angry and hopeless that my first vote as a proud American didn't make a difference. With that being said, I will not be joining all of you at today's meeting because I will be joining my peers at a peaceful rally this evening. To stand in solidarity and to let my presence stand for something. I'm hoping to stand in faith that (good) change will come. I hope you understand and excuse my absence. My peers need me and my efforts are needed elsewhere tonight.

I appreciate your understanding and consideration."

Vice President Mohr said Student Trustee Zheng’s statement is meaningful and poignant. He said the District educates students for the following purposes: so that students can challenge discrimination; so that they can recognize advantages and honor diversity; so that they understand that opportunities and resources are shared by all and that resources will be distributed equitably; and so that they can challenge unjust policies and practices.

ADJOURNMENT
The meeting was adjourned by consensus at 7:35 p.m.
Submitted by

Ron Galatolo, Secretary

Approved and entered into the proceedings of the November 30, 2016 meeting.

Thomas Mohr
Vice President-Clerk
