Update on Student Housing Grant Application (14.1)
(Time Stamp: 2:23:06)

Summary of Discussion: Vice Chancellor Mitchell Bailey provided a summary of actions relating to the District’s application for state funds to develop and construct student housing. He explained to the Board that the California Department of Finance issued a list for projects recommended to be funded that the District’s project was deemed ineligible for consideration. Mr. Bailey explained in detail issues of concern staff found with the process used for evaluating proposals. He asked for the Board’s permission to initiate a process through the District’s local legislative delegation to lodge a protest and to seek to have the District’s project added to the list of projects eligible for funding.

Executive Vice Chancellor Richard Storti stated the District has halted work of the architectural firm engaged to design the student housing project, but in order to move forward with potential state funding, the District would need to continue planning efforts.

Trustees agreed with concerns outlined by staff and advised staff to initiate a process to protest the decision of the Department of Finance. The Board further advised to suspend any planning and associated expenses until there is greater clarity on the grant appeal.

Update on Summer and Fall 2022 Enrollment Efforts (14.3)

Matt Walters of VisionPoint Marketing, the District’s marketing firm of record, provided an overview of the goals of the District’s strategic marketing campaign, including to (1) Stabilize Enrollments; (2) Increase representation among underserved and minoritized communities; and
(3) Raise awareness and elevate perception of the colleges. He explained that there a number of key strategies to achieve the goals.

Vice President Petrides advised the tiers presented look like a good approach, but she would like to know when the plans will start and the cost. Vice Chancellor Mitchell Bailey stated the campaigns would launch for summer and fall terms and that the overall strategic marketing campaign, which will spread over a year’s period is budgeted at roughly $1 million.

Trustee Goodman asked about data from the most recent campaigns. He stated a lot of responses he received from students is that what was said was more bothersome than compelling. He stated that what is being said is more important.

Trustee Pimentel agreed with Trustee Goodman, and stated the Board wants to act on what can be acted upon or changed now. He also asked about providing marketing in languages other than English.

President Holober suggested to find the public image for each of the college campuses and build on it. He asked what students the District was losing to competitors, and how do those schools market to those students to get them to attend their colleges/universities.

Trustee Nuris suggested when marketing, the audience being marketed to should be the one being talked about or presented in the material; the district needs to show that we know who they are.

Student Trustee Garcia stated some of the students are asking the question – how can you help me? How can SMCCCD help me? The programs that SMCCCD offers are not being promoted or advertised to show how the district can be helpful or appealing to students outside the border community.

Summary of Discussion: Chancellor Claire stated there is a formal request for a capital campaign goal of $100 million, and the Foundation asked for clarity from the District on what is intended to be done, and hear from the Board of Trustees for further direction.

Trustee Pimentel advised it is to help provide support to SMCCCD Foundation, which raises funds for a lot of the programs the Board and District care most about, along with specialty groups and programs. The Foundation creates flexibility on how the funds are spent to help most of the
District’s vulnerable populations. He mentioned the Foundation is wanting to know if an additional capital campaign can be created to help fund additional programs, and if the Board would be on board with these efforts.

Trustee Goodman stated the Foundation needs to know what direction the Board wants them to go in raising a large amount of funds for a specific program or cause. He noted that whatever the ask, it should be aligned and flexible enough to be future proof.

Trustee Nuris stated the Board needs to hear from the Foundation on what is needed, so then everyone can be on the same page – what they think they can do, what they want to do, etc.

Foundation Director Tykia Warden stated the Foundation is in the process of completing a RFP process to hire someone to come in and do a feasibility study and determine a realistic capacity to which the current foundation staff can fundraise.
