

Notary Public Service

Judicial and law related matters are of extreme sensitiveness in this present world of complexities. These matters are always occurring around, in almost every department of the practical life you see; students seeking admission, people applying for governmental jobs, cases that need to be heard in court and other countless cases of similar scenarios. In this world, nothing has value until it is documented to be a proof, to be in materialistic form, to exist! If you have signed a statement, it's hard to believe by just telling them that you have signed it; without providing any proof of that. For this people amongst the society are trusted by court and being appointed as Notary Public.

The San Mateo County Community College District offers Notary Public Service. Below is the contact address to schedule an appointment.

Tom Bauer

bauert@smccd.edu
