

Notice of Award

Project Name: Cañada College North Quad Water Feature

Project #: 362

RFP Issue Date: May 22, 2007

Date Awarded: June 4, 2007

Project Description: The Cañada College campus has undergone a dramatic transformation since the adoption of the 2001 Facilities Master Plan. The renovation of the lower quad area, the construction of the new Library/Student Resource Center and the renovation of the upper quad area have given the campus a more updated look and created a comfortable, attractive central outdoor area for the students and staff. The redesigned water feature will include natural granite and rock elements with new recessed seat wall lights and up-lighting for the existing olive trees. The renovation of the existing water feature and lighting upgrade in the adjacent planter boxes will enhance the upper quad area and complement the improvements in the lower quad area.

Awarded to: Rodan Builders, Inc.
1625 El Camino Real
Belmont, CA 94002

Project Schedule:

Start Date: June 13, 2007

To be completed by: July 25, 2007
