

**CHAPTER 2: Administration and General Institution
ADMINISTRATIVE PROCEDURE NO. 2.29.1 (AP 3540)**

**ADMINISTRATIVE PROCEDURE
San Mateo County Community College District**

Subject: AP 2.29.1 Sexual and Other Assaults on Campus
Revision Date: 11/12; 2/16
References: Education Code Sections 67385 and 67386; the Jeanne Clery Disclosure of Campus Public Safe Policy and Campus Crime Statistic Act; 20 U.S.C. § 1092(f); 34 C.F.R. § 668.46(b)(11); AB 1088 Bill 20050907

1. Sexual Assault on Campus Policy Statement AB1088

Any sexual assault or physical abuse, including, but not limited to, rape, domestic violence, dating violence, sexual assaults or stalking as defined by California law, whether committed by a student, faculty, staff, administrator, visitor, or invitee of the San Mateo County Community College District (SMCCCD), occurring on District/College property, or on an off-campus site or facility maintained by the District/College, or on grounds or facilities maintained by a student organization, is a violation of College policies and regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. "Sexual assault" includes but is not limited to rape, forced sodomy, forced oral copulation, rape by a foreign object, sexual battery, or threat of sexual assault.

These written procedures and protocols are designed to ensure victims of sexual assault receive information, treatment and assistance. All students, faculty, staff, administrators, visitors, or invitees of SMCCCD who allege they are the victims of a sexual assault on District/College property shall be provided with information regarding options and assistance available to them. Information shall be available from the following offices on campus: Student Health Center/Psychological Services and College Public Safety Department which shall maintain the identity and other information about alleged sexual assault victims as confidential unless and until the alleged victim authorizes the release of information. Information shall also be available in the office of the Vice President of Student Services.

All alleged victims of sexual assault on District/College property shall be kept informed of any ongoing investigation, through the Student Health Center/Psychological Services and/or the Office of the Vice President of Student Services. Information shall include the status of any student or employee disciplinary proceedings or appeal. Alleged victims of sexual assault are required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality.

The College shall maintain the identity of any alleged victim or witness of sexual assault on District/College property, as defined above, in confidence unless the alleged victim or witness specifically waives that right to confidentiality. All inquiries from reporters or other media representatives about alleged sexual assaults on District/College property shall be referred to the District Director of Community and Government Relations and to local law enforcement.

For additional information and resources on sexual assault, domestic violence, dating violence and stalking in the educational/campus environment, the Department of Justice has established a clearinghouse of resources geared towards colleges and universities, which can be accessed at the California Attorney General's website.

2. Policy on Sexual Assault on Campus

2.1 Introduction

SMCCCD recognizes that sexual violence is a serious issue. The District seeks to ensure that members of its campus community are aware that such behavior is prohibited by law and by College policy, and that the College will not tolerate acts of sexual assaults in any form, including rape, on its campus.

The San Mateo Community College District has adopted Board Policy 2.29, Sexual Assault Education and Prevention (www.smccd.edu). The policy is a statement of the District/College's commitment to educate the college community in order to prevent occurrences of sexual violence. The District/College will provide information to all faculty, staff, and students regarding the definition of sexual assault, how to prevent it, and how to report incidents of sexual assault. The District/College will provide assistance and support to victims of sexual assault and take appropriate actions to correct and discipline behavior that is found to violate the District/College policy or state regulations regarding rape and sexual assault.

2.2 Purpose

The District/College's goals are to create a supportive climate that encourages each victim/survivor of sexual violence to report the incident(s) and to provide support and information to assist her/him in dealing with these traumatic events, while respecting the victim/survivor's right to choose whether or not to report. The District/College also intends to promote campus safety through prompt and confidential reporting of sexual violence incidents to appropriate campus officials.

2.3. Definitions

Complainant:

A student, faculty, staff, administrator, visitor, or invitee of SMCCCD who believes herself/himself to have been sexually assaulted and who engages the SMCCCD sexual assault complaint procedure. If the alleged perpetrator of a sexual assault is a faculty or staff member at SMCCCD, the victim/survivor will have the option of initiating a complaint with SMCCD.

Rape:

The California Penal Code prohibits acts of rape, some of which are summarized as follows: (a) sexual intercourse against a person's will accomplished by force or threats of bodily injury; (b) sexual intercourse against a person's will where the person has reasonable fear that she/he or another will be injured if she/he does not submit to the intercourse; (c) sexual intercourse where the person is incapable of giving consent, or is prevented from resisting, due to alcohol or drugs, and this condition was known, or reasonably should have been known by the accused; (d) sexual intercourse where the person is incapable of resisting because she/he, at the time, is unconscious or asleep, and this is known to the accused; and (e) sexual intercourse where the person is incapable of giving consent or resisting due to youth (under the age of 18), and this condition was known, or reasonably should have been known by the accused. (See also California Penal Code 261.)

Sexual Assault:

Sexual Assault includes threats of sexual violence (section 67385(d), Calif. Ed. Code), incest (between persons who are related to each other within the degrees wherein marriage is prohibited by law), statutory rape (with a person who is under statutory age of consent), and, as defined by the California Penal Code, forced sodomy (anal intercourse), forced oral copulation (oral-genital contact), rape by foreign object (forced penetration, however slightly, by a foreign object, including a finger, into a genital or anal opening), and sexual battery (the unwanted touching of an intimate part of another person for the purpose of sexual arousal). It also includes situations when the accused sexually assaults a complainant incapable of giving consent, including where the complainant is prevented from resisting due to alcohol or drugs or youth (under the age of 18) and this condition was known, or reasonably should have been known by the accused. Except where otherwise necessary, this policy will hereinafter refer to both rape and sexual assault simply as "sexual assault."

NOTE:

Forced intercourse or other unwanted sexual contact is defined as sexual assault whether the assailant is a stranger or an acquaintance of the complainant. Intoxication of the assailant shall not diminish the assailant's responsibility for sexual assault.

2.4 College Responsibility

The College's first responsibility in responding to reports of sexual assault is attending to the needs of the individuals involved. All potential first responders who are affiliated with SMCCCD shall go through a formal training on how to assist victims/survivors of sexual assaults. All reports of sexual assault are taken with the utmost seriousness, and the victim/survivor will be referred to the appropriate persons or units for assistance. The College is also responsible for ensuring that the individual charged with committing the assault is treated fairly. The alleged assailant will be presumed innocent until proven guilty and will be referred to appropriate services for assistance.

A SMCCCD employee reporting a recent incident of sexual violence should be advised to speak to her/his supervisor. A student should be directed to the College's Vice President of Student Services. Each also should be directed to the SMCCCD Public Safety Department for reporting or other options as appropriate. It is not the function of any campus representative to urge a particular course of action upon the victim/survivor.

2.5 Confidentiality

Under The Sexual Assault Policy and Procedures, an affected individual will be accorded the right to privacy, and confidentiality will be maintained other than in circumstances where there is a need to know and to the extent permitted by College policy and California law. Extremely sensitive information is gathered during the investigation of a complaint of sexual assault. California law provides constitutional and statutory protection for the privacy of the individual and specifically allows a complainant of sexual violence to report as "Jane Doe" or "John Doe" in order to maintain confidentiality. To protect the individual's privacy rights, the names of individuals or other identifying information, especially which contained in written documents and notes, will only be disclosed to third parties if prior written permission is given by the individual concerned or to those authorized by state or federal law to receive such information.

In cases of incidents involving students, the Vice President of Student Services is responsible for initiating an investigation, in collaboration with College Public Safety Department, and for proceeding with student disciplinary procedures, if deemed appropriate; and for ensuring that a student who is an alleged victim/survivor is kept informed of any ongoing investigation. Information shall include the status of any student disciplinary proceedings or appeal. The alleged victim/survivor is required to maintain any such information in confidence, unless the alleged assailant has waived rights to confidentiality.

2.6 Policy Summary

The District/College policy on sexual assault (Rules and Regulations 2.29) applies to all members of the campus community, including students, faculty, staff, administrators, visitors, and invitees of the District/College. Any sexual assault or physical abuse, including, but not limited to, rape, as defined by California Penal Code, whether committed by an employee, student, or member of the public, occurring on District/College property, or on an off-campus site or facility maintained by the District/College, or on grounds or facilities maintained by a student organization, is a violation of the District/College policy and state regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures. It is also District/College policy to actively prevent rape and sexual assault. The District/College maintains a zero tolerance standard concerning sexual violence.

3. Procedures: Sexual Assault on Campus Premises

3.1 College Response to Incidents of Sexual Assault

SMCCCD defines the following procedures to be used by all District/College representatives when contacted by alleged victims/survivors of sexual assault. District/College representatives should seek to assist victims/survivors in regaining control of their lives. To the extent possible, victims/survivors should be encouraged to make their own decisions and choices following a sexual assault.

The District/College representative's first concern shall be for the medical or psychological welfare of the person. If the individual is in a crisis warranting immediate intervention, the representative must follow departmental emergency procedures and/or call the SMCCCD Public Safety Department. The representative should provide a safe and comfortable place for the victim/survivor in which to discuss the options available and reach a decision.

Listed below are the steps that shall be taken by a District/College representative/Crisis Responder if a SMCCCD student, faculty, staff, administrator, visitor, or invitee discloses that she/he was sexually assaulted on District property:

Step 1: Attend to the immediate emotional crisis. Listen with compassion and ask the individual what she/he may need.

Step 2: Communicate to the victim/survivor the importance of medical attention and discuss whether immediate assistance is needed. Medical attention is vital for detecting and treating a range of medical concerns, including sexually transmitted diseases, pregnancy, and injuries. Treatment for HIV prevention must be administered within seventy-two (72) hours after the rape, the sooner the better. Preventive measures against pregnancy and treatments for sexually transmitted infections must begin as soon as possible. Seeking medical treatment and permitting the collection of medical evidence does not commit the victim/survivor to making a police report. At a later time, however, if the victim/survivor chooses to report to the police, physical evidence collected soon after the assault will maximize the effectiveness of the legal proceedings.

The need for immediate medical attention can be met at the Student Health Center, whether or not a victim/survivor decides to make a police report. However, there is no need to go to Student Health Center first. Victims/survivors who agree to seek initial medical assistance following a sexual assault are referred to the San Mateo County Rape Treatment Center at San Mateo County General Hospital without showering, cleaning up, or changing clothes as doing these things could destroy evidence.

If transportation is needed, the Vice President of Student Services or the Student Health Center will coordinate transportation to a medical facility. The Public Safety Department or local Police Department also can provide transportation. Additionally, the Student Health Center will provide follow-up testing and health care of registered students who are, or have been, victims/survivors of sexual assaults, regardless of where or when the assaults took place.

Step 3: Determine whether the victim/survivor wishes to report the incident to the Public Safety Department or local Police Department. The role of law enforcement is to fully investigate and document all reports of sexual violence.

The victim's/survivor's request for anonymity and confidentiality is to be honored to the extent permitted by law and College policy (see 2.5 Confidentiality).

AP 2.29.1 Sexual and Other Assaults on Campus (continued)

It is important for the victim/survivor to know that there is a seventy-two (72) hour time period in which important forensic evidence (e.g., sperm and/or skin fragments for DNA identification of an assailant) can be collected and later used in judicial procedures if the survivor desires to prosecute. If the victim/survivor wishes to have evidence collected, medical treatment and collection of forensic evidence must be expedited.

Step 4: Communicate to the victim/survivor the importance of psychological support and discuss with her/him whether immediate assistance is needed. Psychological services are available at the Colleges. The District/College also has resources and referrals to assist with psychological needs that arise in the initial crisis of assault, as well as in the aftermath and longer-term recovery. (For directories of available resources, see Appendices C, D, E, and F.)

Step 5: Inform the victim/survivor that College Disciplinary Proceedings and Action will be carried out according to policy and procedures as published by the in the SMCCCD College Student Handbook.

3.2 College Response to Complaint of Sexual Assault

The Colleges' Vice Presidents of Student Services shall have primary responsibility for providing information to students regarding procedures for reporting incidents of sexual assault and for processing reported incidents of sexual assault involving students through the District's Student Discipline Policy and Procedures (Board Policy 7.69, Student Conduct; Administrative Procedure 7.69.1, Student Disciplinary Procedures; and Administrative Procedure 7.69.2, Student Disciplinary Sanctions). The policy and procedures are available on the District website (www.smccd.edu) and are published in the College's Student Handbook, which is free to all students.

The Vice President of Student Services shall provide each affected individual with the following: a copy of the District/College policy on sexual assault, including the documents "*What to Do If You Are Sexually Assaulted/Raped*" and "*Victim/Survivor's Rights*," a list of Campus representatives to be notified if the complainant (victim/survivor) consents, a description of available services and the persons on campus available to provide those services if requested, and a description of procedures for criminal prosecution, civil prosecution (i.e., lawsuit), and District/College disciplinary procedures (Board Policy 7.69; Administrative Procedures 7.69.1 and 7.69.2).

If the accused student and victim/survivor have contact within academic buildings, the Vice President of Student Services will determine whether a directive to refrain from contact with the alleged victim/survivor should be issued to the alleged perpetrator. The Vice President of Student Services also will be responsible for making the determination whether interim suspension should be invoked against the alleged perpetrator.

At the request of the complainant (victim/survivor) and upon the receipt of a written and signed complaint or verbal report, the Vice President of Student Services shall initiate an investigation and notify the SMCCCD Public Safety Department. If the Vice President of Student Services determines that circumstances so warrant, an investigation shall be initiated with or without the consent of the complainant.

The Vice President of Student Services shall notify the appropriate faculty, staff or students, and the alleged assailant that an investigation is underway and provide the names of the parties involved.

Pursuant to the Colleges' Student Discipline Procedures, the Vice President of Student Services shall conduct a prompt, full, and impartial investigation. The complainant is entitled to due process and shall have an opportunity to present evidence and a list of relevant and material witnesses. A complaint for sexual assault should be filed as soon as possible. The investigation shall generally be completed within twenty (20) instructional days of the receipt of the complaint.

AP 2.29.1 Sexual and Other Assaults on Campus (continued)

The time period for investigation may be extended by mutual consent of the parties or for good cause, including the complexity of the issues under investigation and the unavailability of relevant witnesses due to semester recess. Both the complainant and the accused will be informed of any extension of the investigation. At the conclusion of the investigation, the Vice President of Student Services shall prepare a written report.

The report shall include a description of the facts, the remedy sought by the complainant, and recommendations for further action if deemed necessary by the Vice President of Student Services. These recommendations shall be based upon the strength of evidence against the accused, the seriousness of action(s) that led to the complaint, and the remedy sought by the complainant. If assault is found, SMCCCD will implement such action as is necessary, including disciplinary sanctions that lead to suspension or expulsion from the College, to correct the situation and to prevent it from recurring. The complainant and the accused will receive written notice of the College's proposed determination regarding whether an assault occurred and of the disposition of the complaint.

The Colleges will adhere to student disciplinary procedures in processing incidents of alleged sexual assault. The complainant or the accused may request reconsideration of the College's proposed determination by submitting additional relevant evidence, identifying errors of fact or of standards applied in the investigation or determination, or showing that further investigation is necessary. A request for reconsideration of the College's proposed determination must be made to the Vice President of Student Services in writing within five (5) instructional days of receipt of the Notice of Proposed Determination. The request for reconsideration must clearly specify the basis for making the request.

Within ten (10) instructional days of receiving a request for reconsideration from either the complainant or the accused, the College will provide written notice to the other party that such a request has been made, and will proceed following student discipline appeal procedures.

3.3 Procedures for Criminal Prosecution, Civil Prosecution (i.e., Lawsuit), and College Disciplinary Procedures

A person interested in pursuing civil litigation is urged to contact legal services. SMCCCD is not responsible for legal expenses.

It is unlawful for anyone to retaliate against someone who files a sexual assault complaint, who refers a matter for investigation or complaint, or who participates in an investigation of a complaint. It is also unlawful for anyone to retaliate against anyone who represents or serves as an advocate for a reported survivor or alleged offender, or who otherwise furthers the principles of this policy of Sexual Assault on Campus.

3.4 The Annual Public Safety Report

The SMCCCD Public Safety Department will keep and maintain an annual Public Safety report that includes the following:

3.4.1 A description of educational programs to promote the awareness of sexual assault

3.4.2 Procedures to follow if a sexual assault occurs

3.4.3 Information on a victim/survivor's option to notify appropriate law enforcement authorities, if she (he) so requests

3.4.4 Information about existing services available for victims/survivors

3.4.5 Information on changing a victim/survivor's academic situation after an alleged sexual assault, if those changes are requested by the victim/survivor and are reasonably available

3.4.6 Procedures for campus disciplinary action, including statements that 1) the accuser and the accused are entitled to the same opportunities to have others present during a disciplinary proceeding; and 2) both the accuser and the accused must be informed of the outcome of any institutional disciplinary proceeding.

3.4.7 A description of the sanctions the campus may impose following an outcome of a disciplinary proceeding.

3.5 Education and Prevention Information

Representatives from the Crisis Response Team, SMCCCD Public Safety Department, Student Health Center, Counseling Department, and other appropriate representatives will provide, as part of the College's established orientation programs, education and prevention information about sexual assault. The information will be developed in collaboration with campus-based and community-based survivor advocacy organizations and will be open to the public. College representatives from the aforementioned departments will also post prevention and education information on sexual violence on SMCCCD internet websites (See Appendix G). Sexual Assault information is available in the Student Health Center/Psychological Services, College Public Safety, and on the SMCCCD website (www.smccd.edu).

3.6 Procedure Summary

3.6.1 If an individual is assaulted on campus, she/he would be strongly urged to call the SMCCCD Public Safety Department. Additionally, if the victim/survivor prefers, and the offices are open, she/he may obtain services through the Vice President of Student Services, the Student Health Center/Psychological Services and/or any of the Deans.

3.6.2 SMCCCD will investigate all allegations of sexual assault and initiate appropriate disciplinary, criminal, or legal actions, with the cooperation of the victim/survivor. We understand and affirm the right of victims/survivors to choose whether or not to report incidents of sexual assault. If a victim/survivor chooses to report an incident of sexual assault, she/he should do so as soon as convenient, and preferably within 72 hours. The victim/survivor should report the incident, including date or acquaintance rape, to the SMCCCD Public Safety Department or to the local Police Department.

3.6.3 The victim/survivor should make every attempt to preserve any physical evidence of the assault. This may include a voluntary medical exam, not showering, or disposing of any damaged clothing, or other items that are present after/during the assault. If assaulted on District/College property, the victim/survivor shall seek medical attention at Student Health Center or counseling from Psychological Services, call the Vice President of Student Services during regular business hours. During after hours, she/he should call the SMCCCD Public Safety Department. If assaulted on non-District/College property, the victim/survivor should seek medical care at the San Mateo County General Hospital and contact the local Police Department.

3.6.4 If the victim/survivor was assaulted on a non-District/College property, she/he should call San Mateo County Rape Trauma Center (RTS) (650) 692-7273, or dial 911 and seek the assistance of the local police, San Francisco County Trauma Recovery Center (415) 437-3000, National Rape Crisis Hotline/Nationwide RAINN: 1 (800) 656-4673, Bay Area Women Against Rape (BAWAR) in Oakland 24-hour crisis line: (510) 845-7273, and (510) 430-1298 (Office), Rape Trauma Services in Peninsula (650) 652-0598 where services in both Spanish and English are provided.

3.6.5 Please ask the victim/survivor to seek professional psychological counseling service as soon as convenient. College representatives/Crisis responders who respond and support the victim/survivor are also encouraged to seek psychological counseling services as soon as convenient.

3.6.6 With a finding of culpability, College disciplinary procedures will be initiated on the perpetrators, ranging from suspension to expulsion. Due process and privacy will be afforded to the accuser and the accused.

4. Appendices

4.1 Appendix A: "What to Do If You Are Sexually Assaulted/Raped"

- **If you are in immediate danger, call 911.**

- **Go to a safe place.** This is not the time to be alone. At the very least, you need emotional support. If there is no one to go to, call someone you can talk to, no matter how late it is. Places on campus where you can get help are the Student Health Center, the Psychological Services office, the Vice President of Student Services, SMCCCD Public Safety Department, or any counseling or administrator's office.

- **Get medical attention.** As soon as possible, go to a hospital or the Student Health Center to be examined and treated for any injuries or infections. For example, treatment for HIV prevention must begin within a seventy-two (72) hour period after the assault/rape, but the sooner the better. You may want to take measures to prevent pregnancy as soon as possible. At the very least, you need to get tested and maybe treated for various sexually transmitted infections. You can seek medical treatment and provide medical evidence without having to report to the police. If you choose to report later, physical evidence that was collected soon after the assault would make legal proceedings more effective.

- **Report the assault to police and campus officials, whether or not you plan to file charges.** Reporting a rape does not commit you to filing charges but does make filing a charge easier at a later date. When you make your report, you may take someone with you. You can go the next day, but the sooner the better. Rarely do rapists attack one person only, they get away with it and so they continue to do it. A report may be filed with the Vice President of Student Services, SMCCCD Public Safety Department and/or local Police Departments. If the perpetrator of the assault is a faculty or staff member at SMCCCD, you have the option of initiating a complaint with the College Administration.

If you decide to report, physical specimens collected soon after the sexual assault will be valuable evidence. Do not shower or clean yourself first. If you change, place your clothes in a paper bag. Do not destroy or wash the clothes you were wearing. The Student Health Center is not an "evidence collection" site, so if you do want to file charges, arrangements will be made for you to go to San Mateo County Rape Treatment Center at San Mateo General Hospital, which is designated as the "evidence collection" site for sexual assaults that occur in San Mateo County. You have the right to choose whether or not to report and/or file charges.

- **Consider whether you want to file charges with the police and/or with campus authorities.** Pressing charges can be a long, painful process. Each person must decide for themselves, based on their own circumstances, whether it makes sense to go through it. You may also speak with the local Police Department about what will happen before your decision.

4.2 Appendix B: Victim/Survivor's Rights

- To be treated with respect, dignity, and courtesy and without prejudice based upon race, class, lifestyle, sex, age, occupation, or religious beliefs;
 - To receive emotional and psychological support services and advocacy;
 - To have the assistance of Campus personnel in obtaining and securing evidence;
 - To receive private and confidential examination and treatment for personal injuries, sexually transmitted disease, and pregnancy;
 - To be informed and ask questions regarding examinations and treatment given;
 - To the strictest possible confidentiality in incident and medical records, unless release of information is agreed;
 - To receive current information on campus and community resources;
 - To be informed of the options available through the college and the legal system;
 - To seek criminal charges and/or file a disciplinary complaint;
 - To be considered as credible as a person reporting any other crime;
 - To be asked only those questions which are relevant to law enforcement investigation or medical treatment;
-

AP 2.29.1 Sexual and Other Assaults on Campus (continued)

- To be informed of the status and outcome of any student or employee disciplinary proceedings or appeal;
- To be given the choice to prosecute or not to prosecute; and to have feasible class schedule adjustments (without academic or financial penalty) as necessary to minimize the potential contact with the alleged assailant or those associated with the alleged assailant.

4.3 Appendix C: Key Campus Representatives to Be Notified in the event of a Sexual Assault, Should the Victim/Survivor Choose

When any one of the campus offices listed below is notified of a sexual assault on or near a SMCCCD property, that office should immediately notify the Public Safety Department and College/District administration.

4.4 Appendix D: Services Available to Victim/Survivor of a Sexual Assault on Campus

Vice President of Student Services

Coordination for all Sexual Assault on Campus services for the college and reporting of the incident should the victim/survivor permit

Student Health Center/Psychological Services

Provision of health care and psychological counseling services and referrals

SMCCCD Community College Public Safety Department

Reporting of the incident if the survivor desires police investigation and support

Counseling Offices

Provision of support, resources, and referrals
