

1978 Spring Mini-Semester

SHORT COURSES have become increasingly popular with our community. Cañada's first "mini-semester" is a response to community requests for short courses in every major college instructional area -- from physical education to the arts, from solar heating to examination of the 1978 election issues. There are eighty opportunities for you to receive first quality teaching.

Busy people have tight schedules; and the "mini-semester" has been planned for busy people. Most classes meet for sixteen hours. You will find courses available in morning, mid-day, late afternoon, and evening

hours. Several classes are offered on Saturdays.

Welcome to our mini-semester!
