These services will be available for a minimum of two hours per week by Planned Parent Golden Gate employees including a Clinician and a Medical Assistant/Community Outreach Worker. The most frequently requested service is the variety of services related to reproductive health. Nurse Lesli Sachs also pointed out that it is inconvenient and sometimes impossible for our students to obtain the necessary services described above.</p> <p>Discussion took place among members. It was made clear that these services have nothing to do with abortion and that their focus is on augmentation of a good health program through prevention. It was asked if the College would have a prepared statement to address faculty/staff/students/media and were told that the College has put together a plan in addressing these groups. Question asked on how these services would be marketed – members told that Planned Parenthood Golden Gate will provide posters and fliers. Nurse Lesli will also make arrangements with our faculty to visit the classrooms informing students of these services. It was also suggested that we speak to the Middle College faculty on our campus. President Mohr added that it was imperative our students understand this program and that Cañada College’s support is in relation to personal health and well being for our students.</p> <p>With no further discussion, a motion was made and seconded to move forward on the partnership between Planned Parenthood Golden Gate and Cañada College (SMCCCD).
