

STUDENT SURVEY

Child Development Center/ECE Laboratory Viability Study

Cañada College Early Childhood Education Department is in the process of developing a business plan for the implementation of a new Child Development Center/Early Childhood Education Laboratory (CDC/ECE Lab) to be housed in building 22, the new building at the north end of campus. The building was originally designed and built as a CDC/ECE Lab, however due to uncertain fiscal times over the past few years we have chosen to delay opening. At this time we need updated information from you to help us evaluate the need for a CDC/ECE Lab. Please take a few moments to complete this questionnaire and return it to your instructor. We appreciate your assistance in gathering the necessary data to make a sound plan for the college.

There are three sections to the survey; one for all students, one for students with children and one for ECE/CD students. **Please fill out all sections that apply to you.**
