

CIETL

Center for Innovation and
Excellence in Teaching and
Learning

- What do students need to learn?
- How will we help them learn these things?
- How do we know what they are learning?
- How can we improve the learning process?

Life After Assessment

Questions

- Do the course SLOs reflect the most important outcomes of the course?
- Are they written in a way that makes them assessable?
- Are there alternative assessments that would reveal more about student learning?
