1. May 9, 2006 agenda motion to change order of agenda denied. Agenda Approved.
NOTE: Discussion regarding the large number of courses on the agenda. With so many courses to evaluate before the meeting it was impossible within the timeframe allowed for committee members to review each course completely. Therefore, members were not able to be fully prepared for the meeting. Because this is the last meeting for courses to be approved for the new catalog it is important to review as many as possible. The committee needs to find a way to remedy this situation as every year this particular meeting is overflowing with course modifications etc. A suggestion was made to change the placement of the Program Review meeting to an earlier spot in the semester leaving more meetings open for course reviews.
