

classroom, 7,870 ASF of class laboratory, 3,442 ASF of office, and 714 of other space. The project will terminate all utilities, remove all debris from the site, and landscape the area vacated by the buildings in a manner consistent with the existing campus, and provide much needed parking for faculty, staff and students.

Total Project Cost: The total project cost is expected to be approximately \$3.000 million, to be funded by Measure H general obligation bond funds.

Status: This project will occur late in the program, to allow use of the existing facility as temporary space for occupants of facilities under construction associated with Capital Improvement Program Phase 3 (CIP3).

SKYLINE COLLEGE – ENERGY SYSTEMS MANAGEMENT

Project Description: With the increased interest and opportunities in the sustainable construction and energy management technologies, the College has experienced significant growth in related programs. The programs are currently housed in Pacific Heights, which is needed for temporary housing for programs displaced by construction. This new approximately 7,000 square foot building will serve as a model for sustainability and a home to the programs that support these new technologies.

Total Project Cost: The total project cost is expected to be approximately \$5.000 million, to be funded by Measure H general obligation bond funds.

Status: Design is underway with occupancy scheduled for fiscal year 2018-2019.

SKYLINE COLLEGE – ENVIRONMENTAL STUDIES

Project Description: With the increased sensitivity to and the growth in green technologies, the College has experienced a huge growth in the environmental sciences program. The program is currently housed in scattered locations around the campus. This new approximately 18,000 square foot building will serve as a model for sustainability and a home to the programs that support these new technologies.

Total Project Cost: The total project cost is expected to be approximately \$20.000 million, to be funded by Measure H general obligation bond funds.

Status: Design is underway with occupancy scheduled for fiscal year 2018-2019.

SKYLINE COLLEGE – VISUAL AND PERFORMING ARTS COMPLEX

Project Description: This project replaces the 77,587 GSF Fine Arts Building (Building 1), constructed in 1969, and which contains hazardous materials, does not meet current structural, accessibility or energy efficiency codes, and is constructed of cast-in-place concrete which does not lend itself to reconfiguration. The building is in need of extensive modernization to the extent that replacement becomes the more practical solution. The building provides teaching and learning spaces for the arts and social sciences including theatre, photography, painting, ceramics, music, digital arts, dance, paralegal, and administration of justice, philosophy, psychology, history, and sociology.
