|               |        |           |            |             |        |             |

1. ANCHOR DIAMETER REFERS TO THE THREAD SIZE FOR THE WEDGE & SHELL CATEGORIES AND TO THE ANCHOR OUTSIDE DIAMETER FOR SLEEVE CATEGORY

2. APPLY ROOF TEST LOADS TO WEDGE AND SLEEVE ANCHORS WITHOUT REMOVING THE NUT IF POSSIBLE. IF NOT, REMOVE NUT AND INSTALL A THREADED COUPLER TO THE SAME TIGHTNESS OF THE ORIGINAL NUT USING A TORQUE WRENCH AND APPLY LOAD.

FOR SLEEVE/SHELL INTERNALLY THREADED CATEGORIES, VERIFY THAT THE ANCHOR IS NOT PREVENTED FROM WITHDRAWING BY A BASE PLATE OR OTHER FIXTURES, IF RESTRAINT IS FOUND, LOOSEN AND SHIM OR REMOVE FIXTURE(S) PRIOR TO TESTING.

4. REACTION LOADS FROM TEST FIXTURES MAY BE APPLIED CLOSE TO THE ANCHOR BEING TESTED, PROVIDED THE ANCHOR IS NOT RESTRAINED FROM WITHDRAWING BY THE FIXTURE.

5. SHELL TYPE ANCHORS SHOULD BE TESTED AS FOLLOWS: VISUALLY INSPECT 25% FOR FULL EXPANSION AS EVIDENCED BY LOCATION OF THE EXPANSION PLUG IN THE ANCHOR BODY. PLUG LOCATION OF A FULLY EXPANDED ANCHOR SHOULD BE AS RECOMMENDED BY THE MANUFACTURER, OR, IN THE ABSENCE OF SUCH RECOMMENDATIONS, AS DETERMINED ON THE JOB SITE FOLLOWING THE MANUFACTURERS INSTALLATION INSTRUCTIONS AND: PROOF LOAD 5% AS INDICATED IN THE TABLE ABOVE. BUT NOT LESS THAN THREE ANCHORS PER DAY FOR EACH DIFFERENT PERSON OR CREW INSTALLING ANCHORS, OR 50% OF THE INSTALLED ANCHORS PER 1925A.3.5.

6. TEST EQUIPMENT IS TO BE CALIBRATED BY AN APPROVED TESTING LABORATORY IN ACCORDANCE WITH STANDARD RECOGNIZED PROCEDURES.

7. TORQUE TEST VALUES FOR SHELL TYPE ANCHORS OMITTED DUE TO LACK OF DATA. TORQUE TESTING CAN OCCUR ON AN INDIVIDUAL BASIS WHEN TEST PROCEDURES ARE SUBMITTED AND APPROVED BY THE ENFORCEMENT AGENCY. TABULATED VALUES MAY BE FORTHCOMING ONCE THE ENFORCEMENT AGENCY HAS MORE DATA TO EVALUATE THE FEASIBILITY OF STANDARD TORQUE VALUES.

8. THE FOLLOWING CRITERIA APPLY FOR THE ACCEPTANCE OF INSTALLED ANCHORS: HYDRAULIC RAM METHOD: THE ANCHOR SHOULD HAVE NO OBSERVABLE MOVEMENT AT THE APPLICABLE TEST LOAD. FOR WEDGE AND SLEEVE TYPE ANCHORS, A PRACTICAL WAY TO DETERMINE OBSERVABLE MOVEMENT IS THAT THE WASHER UNDER THE NOT BECOMES LOOSE. TORQUE WRENCH METHOD: THE APPLICABLE TEST TORQUE MUST BE REACHED WITHIN THE FOLLOWING LIMITS: WEDGE OR SLEEVE TYPE: -ONE-HALF (1/2) TURN OF THE NUT.

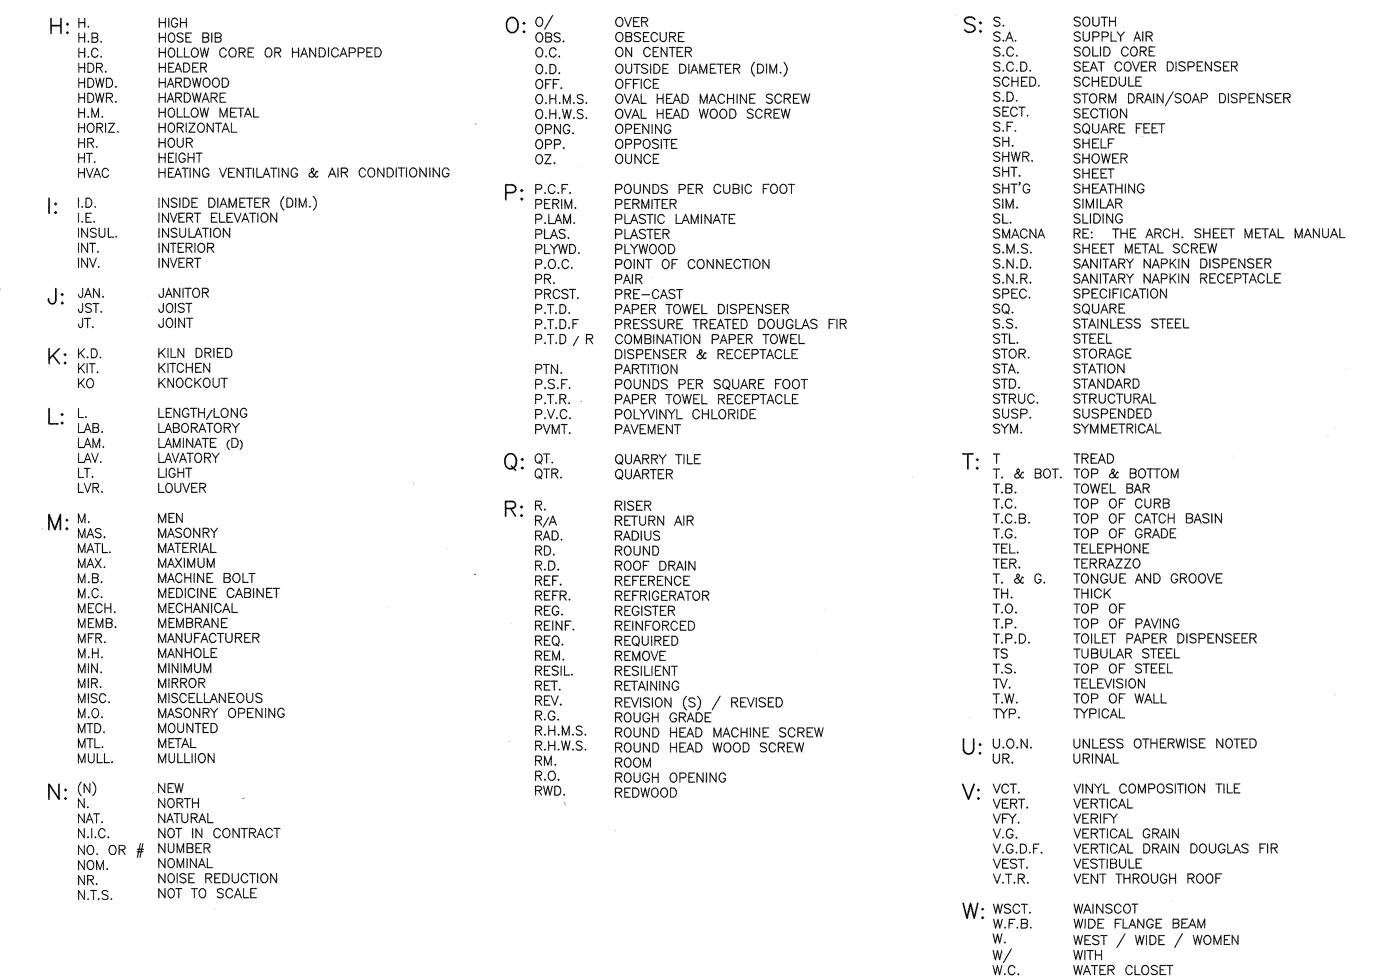

-ONE-QUARTER (1/4) TURN OF THE NUT -FOR THE 3/8" SLEEVE ANCHOR ONLY.

9. TESTING SHOULD OCCUR 24 HOURS MINIMUM AFTER INSTALLATION OF THE SUBJECT ANCHORS.

# SCOPE OF WORK

REMODELED FOR HANDICAPPED ACCESS.

# FIRE RESISTIVE CONSTRUCTION OF BUILDING ELEMENTS

PROJECT CONSISTS OF THE INTERIOR REMODEL OF (E) FIRST FLOOR OF BUILDING #2 (3 STORY CONCRETE BUILDING WITH STUDENT SERVICES OFFICES ON SECOND FLOOR AND CAFETERIA ON THE THIRD FLOOR). WORK ON THE 1ST FLOOR IS FROM GRIDLINE 'G' TO GRIDLINE 'A' AND GRIDLINE 'I' TO GRIDLINE '7'. REMODEL AREA CONSISTS OF COMPUTER LABS WITH NEW ACCESS FLOOR ON TOP OF (E) SLAB ON GRADE, NEW NON BEARING PARTITIONS AND NEW SUSPENDED ACOUSTICAL TILE CEILINGS. NEW MECHANICAL SYSTEM, NEW LIGHTING AND NEW POWER AND DATA TO BE PROVIDED. EXISTING TOILET ROOMS

### STATE BUILDING CODE (Part 1, Title 24, C.C.R.)

Due to the difficulty of anticipating every unsatisfactory condition that might be found in existing construction where alteration, rehabilitation or reconstruction work is proposed, the following clause or one of similar meaning shall be included in all specifications for alteration, rehabilitation or reconstruction projects: "The intent of these drawings and specification is that the work of the alteration, rehabilitation or reconstruction is to be in accordance with Title 24, California Code of Regulations. Should any existing conditions such as deterioration or noncomplying construction be discovered which is not covered by the contract documents wherein the finished work will not comply with Title 24, California Code of Regulations, a change order, or a separate set of plans and specifications, detailing and specifying the required work shall be submitted to and approved by the Office of Regulation Service before proceeding with the work"
