Our Professor Was Honored by President Obama!

Cañada College

Professor of Engineering and Mathematics,
Amelito Enriquez (pictured on the left), was one of nine individuals to receive the Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring. He was honored by President Obama.

Enriquez was the only community college professor to receive the award. Other professors came from universities including Tufts University and University of Michigan.

Enriquez has attracted more than \$10 million in state and federal grants to the college over the past three years.

Our students have won the highest number of scholarships from the National Science Foundation than students from any other California community colleges.
