Bulking Procedure for Fixed Asset(s)

What is the Bulking Process?

To meet Governmental Accounting Standards Board (GASB) requirements, the District began the bulking process approximately two years ago. The bulking process consists of purchases of furniture, fixtures, equipment, etc., which should be capitalized, depreciated and inventoried. Bulk purchases are defined as the purchase of more than one item regardless of the unit cost (including tax, installation, shipping, etc.), and the total purchase is greater than \$5,000. The bulking method does <u>NOT</u> apply to federal or state funds (fund #'s that begin with 30xxx (Federal) and 31xxx (State)). The bulking method also does <u>NOT</u> apply to funds beginning with 10xxx or other funds beginning with 3xxxx.

*****NOTE:** All inventoried items are fixed assets and must be assigned an asset tag number by General Services. Asset tags for bulk purchases are retained by General Services at the District Office

Bulking is ONLY required if all of the following are met:

- 1. The total amount of the requisition/purchase order exceeds \$5,000;
- 2. The Fund 4 Code is used; and
- 3. Any of the following Fixed Asset Account Codes are used:
 - a. 6450 (Inventoried Equipment)
 - b. 6459 (Computer Software)
 - c. 6459N (Computer Software Non-Taxable)
 - d. 6470 (Furniture/Fixtures)

All fixed asset account codes must never be combined with non-fixed asset account codes

Bulking Regulations:

- Bulk purchases of furniture, fixtures, and equipment exceeding \$5,000 should be capitalized, and depreciated. These purchases must be inventoried every three fiscal years and cannot be split into separate purchases.
- Bulk purchases cannot be combined with ANY other fund other than fund 4. Also, bulk purchases cannot be combined with any other account numbers other than the fixed asset account codes: 6450, 6459/6459N, & 6470.

Bulking Guidelines:

- When creating a bulking purchase, the requisition/PO should indicate the asset location as follows:
 - College/Site (CAÑ / CSM / SKY / DO), Building #, Room #, Department and Requestor's Name
 - E.g.: CSM B7-102, Facilities Maint. Center, Linda Liu
- Changes cannot be made once the requisition is approved at the college level. If you need
 assistance, please reach out to General Services prior to processing the requisition for
 approval.

Requisition Guidelines:

When creating bulking requisitions, **use commodity code:** "<u>BULKING</u>" and the item description will default to: "Bulking Purchase of Fixed Assets" followed by Unit of measure (U/M): <u>BLK</u> and add your item description in the item text. Click "RELATED", select item text and select "Copy Commodity Text" and fill out the following: (except Asset tag#)

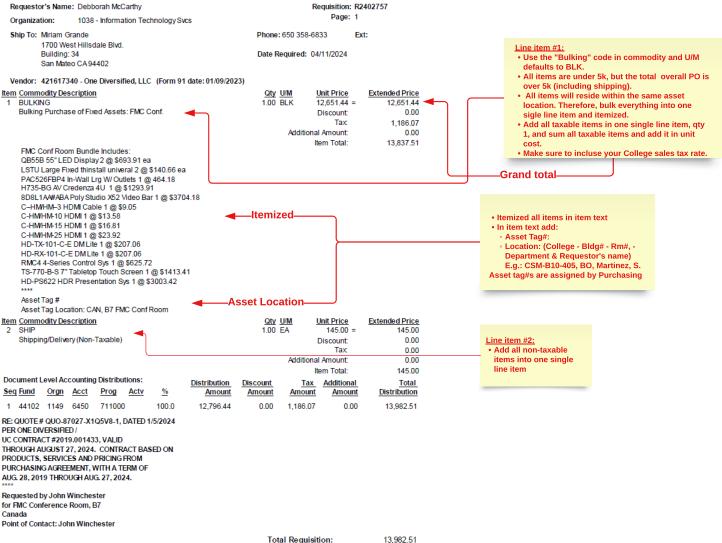

Asset Tag#:	
Location:	
Department:	
Requested by:	

Purchase of:	

The following are key considerations to determine how to enter the requisition:

- 1. If all taxable items will **NOT exceed \$5,000 per unit cost and will reside within the same asset location:**
 - a. All taxable items should be placed on **ONE** single line item and indicated as **Quantity 1**, and each of the items described individually in the item text.
 - b. All non-taxable items (such as shipping, installation, labor, warranty, etc.) should be placed on a separate line item.
 - c. *** Refer to Scenario #1
- 2. If all taxable items will exceed \$5,000 per unit cost and will reside within the same asset location:
 - a. All taxable items should be placed on **ONE** single line item per item description, and the **Total Quantity** indicated and described in the item text.
 - b. All non-taxable items (such as shipping, installation, labor, warranty, etc.) should be placed on a separate line item.
 - c. *** Refer to Scenario #2
- 3. If all taxable items will **NOT exceed \$5,000 per unit cost and will reside in MORE THAN ONE asset location:**
 - a. All taxable items should be placed in as many line items as asset locations. Each location should have its own line item and indicated as **Quantity 1**, and described individually in the item text.
 - b. All non-taxable items (such as shipping, installation, labor, warranty, etc.) should be placed on a separate line item.
 - c. *** Refer to Scenario #3
